There is also the option to walk as shown below.

When arriving at the bunker, it is slightly hidden from the main road and is not labelled, so be sure to keep an eye out. There is limited parking available if you are a driver. If you drive, please consider picking up others who may also be going for a session, and you will be given a discounted rate as a thank you.

The entrance to the building is here. There is a secure entry system so you will need to press the buzzer and wait for someone to come out to you.
