

Questionnaires of the group

*It is used in the interaction with the group.
As the students practiced with this type of interaction, they start to ask questions of colleagues.*

Clarification

What do you think I want to say?
Can you explain in a different way?
I don't quite understand, what do you mean?"

Resuming

What have you learned so far?
Where should you get?

Listen

I understand that you say ...?
You said in fact...?

Participation

What do you think about that?
What I think the others?
Who is the agreement?

Facilitate

I do not know. What do you think?
How should we further?

Solving Problems

How do you think otherwise, about this?
What would be if someone would say: ...?
Some believe that, what do you think?
How you would help it?
What did you decide about...?

Analysis

How does that, with what he said his colleague X?
Is it the same way as that used and X ?
How is this different from the idea of his colleague X?
Can anyone think what will happen later?

Feedback

How should you the feedback yours?"
How is actually...?
What changes relating to ... Recommend?
How did you resolve the situation...?
