17:44:48 From Sarah Thorne : Do the heat pump rebates cover commercial installations?

17:45:03 From Mary Beth Raven : actually this url works fine <https://nhsaves.com/>

17:46:38 From BETH McGuinn, Canterbury : Does anyone know who is authorized to install batteries for Eversource?

17:47:46 From Bruce Berk Pittsfield : Is the battery storage per year - or only a one time subsidy of up to 3000.

17:48:00 From Paul Bemis : They are undervaluing the battery, as you are well aware.

17:49:34 From Paul Bemis : The installers are listed on their website:<https://www.eversource.com/content/residential/save-money-energy/energy-efficiency-programs/demand-response/battery-storage-demand-response>

17:53:27 From Michelle : Please move the little icon off the screen as it is blocking part of the slide

17:56:09 From Katie : can you have a heat pump installed in the fall but still qualify when it starts?

17:56:13 From Ruth Heath- Canterbury Energy Comm. : These started a couple years ago in other states, but we weren't ready in our state. If someone in NH purchased in 2024 or before, will they qualify retroactively?

17:56:37 From Rachel Ranelli : Replying to "can you have a heat ..."

They will not

17:58:01 From Rachel Ranelli : Here is the document with all the incentive information:
<https://docs.google.com/document/d/1BSs2cG-1gT6afBpiVhykwGmfVeVKYOfMKX2GoqDZ2g/edit?usp=sharing>

17:58:02 From Katie : can it be ordered from the installation company, but installed when the program starts

17:59:28 From Meredith Smith : Will these slides be distributed to attendees after tonight's presentation?

18:00:24 From Rachel Ranelli : Replying to "can it be ordered fr..."

Here is what the website says: Rebates will only be available for projects initiated by NH consumers AFTER the program has officially launched (we are anticipating the spring of 2026). Projects initiated prior to the launch date are not eligible for a rebate.

18:00:36 From Paul Bemis : Green Mountain Power has been very successful with this program

18:00:36 From Susan Richman : Slides and the video presentation will be posted at www.newhampshirenetwork.org/events and we'll include links to any Monadnock Hub documents about this topic.

18:04:40 From BETH McGuinn, Canterbury : Can the Network or another org seek grant funding for the Energy Hub to prepare materials for others seeking to do the same kind of work?

18:05:01 From Beth : While you do need to owe taxes to claim federal investment tax credits, credits can be carried forward.

18:06:42 From Name Janet Altobello : So with the 30% up to \$1000. EV charger benefit, can it be partly used for wiring & installation as well as the charger?

18:08:47 From Katie : I did not notice windows, are there any rebates/assistance for replacing windows?

18:08:59 From Frank Richter - Clean Energy NH :
<https://www.irs.gov/pub/irs-pdf/p6027.pdf>

18:09:18 From BETH McGuinn, Canterbury : Replying to "So with the 30% up t..."

From the DOE website: This credit is 30% of the cost of 1) the EV charging port, 2) components and parts that are essential to the operation of the charging port, and 3) labor for constructing and installing the charger, up to \$1,000.

18:10:11 From Rachel Ranelli : Replying to "I did not notice win..."

The Home Efficiency Measures tax credits includes windows

18:15:21 From Meredith Smith : What about new exterior siding and insulation?

18:15:45 From Paul Bemis : GMP's BYOD program still has some spots available for customers to enroll. It offers the largest discounts in the country up to \$10,500 when you buy home batteries from a retailer of your choice and agree to share stored energy with GMP during power peaks. GMP's Powerwall program is full for 2020, and you can join the waiting list for

2021. Each program can enroll about 500 customers per year. Details are available on GMP's website:

18:17:35 From Kate : What is GMP?

18:17:59 From Alex Durfee Sutton, NH : Looking forward to HEAR rebate deployment in 2026 & being a part of getting that word out. Thx for presentation!
