Small note:

Sketches are always sent out first before moving to end process. Feel free to correct me to the smallest details because the more accurate I do my work, the better! I'm not the fastest artist out there and I hope to have your understanding and patience with how things go in my work, I like to take time for the detail I do to have the picture worth of your order:) Thank you for commissioning me again, you help me get through, pay bills and vet bills, medical treatments, etc! You're the one whos amazing!

I don't do trades and probably wont ever due to busy time schedule, the only things I draw outside commissions (which are rare) are for myself something usually done just in sketch and lazy coloring & shading cuz it's just done due to warmup or fighting art burnout so please don't get angry if I draw something silly and ya waiting for your commissions, k? k.
