Meeting ID: 183 382 852 (password required)

Operations Meeting June 14, 2024

Attendees: Jeff D, Ashton, John

Apologies:

Fires

-

Announcements

- William is on Freshdesk triage next week, Derek is up the following week

Nebraska (Derek, John, Huijun, Ashton)

- **GRACC**
 - OpenSearch internal certificate updated
 - RabbitMQ upgraded
- **OASIS**
 - Still debugging issues with updates, showing up as only partially working in SLA report. Believe it's sorted out.
 - Planning upgrade to EL8, pending DNS update
- **OSG Status Page** (<https://status.opensciencegrid.org/>)
 -
- **Check_MK - Alerting**
 -
- **CVMFS origin**
 - ligo.storage.igwn.org appears fixed. It was an issue with the origin configuration after a software update
- **XRootD monitoring collector**
 -
- **CVMFS Singularity sync**
 -

Madison (Brian Lin, Jeff Peterson, Jason)

- OSG operators should now be able to list nodes and namespaces in Tiger
 - kubectl get nodes

- kubectl get ns
- Still working on separate gwms-factory namespaces
- Tiger EL9 upgrades will begin soon (TM). Most hosts are on CS8 so we need to sort this out by May 31

Chicago/Collaborations (Pascal)

-

Michigan (Shawn)

- Waiting to renew the data to transport to Opensearch and FNAL tape

UCSD (Jeff, Diego, Fabio)

MISC:

-

Central Manager

-

Frontends

- UCSD CMS:
 -
- UCLHC
 -

Caches:

-

Hosted CEs

- Declared transitioning CEs to new job router syntax finished. Have a few lingering dead CEs to decommission (work in progress)

GWMS Factory

- Need to invite other VO frontends to connect to k8s factories
 - Fixed FNAL FE registration

- Working on reinstating some old queue cleanup scripts to clear out stale glideins, k8s factory is suffering from too many glideins left in X state on condor queues
