This is the template for Next-Generation Materials, Engineering and Technology Conference - NextMatCon abstracts: put the title of your submission here

Firstname Q. Surname[1], Use First Names[2], Underline Presenting-Author[1,*]

[1]*Institute or Department, University or Company, Street Address, City, Country*
[2]*Institute or Department, University or Company, Street Address, City, Country*
presenting.author@email.com

Please follow these formatting requirements for your abstract:

- References should be marked using superscripts (e.g., [1],[2]).
- Figures are optional, but note that abstracts won't be printed in color. Therefore, all figures must be clear in grayscale. You can wrap text around figures, but ensure they remain within the page margins for proper printing. For centered captions, we recommend embedding figures and their captions within a one-cell table, as demonstrated in Fig. 1.
- Do not alter any spacing, fonts, margins, or sizes. Ensure all text is justified.
- A paper number and page number will be automatically added to the top and bottom of your abstract, respectively. The document's header and footer must not be changed.
- Your abstract will be printed exactly as submitted, so review it thoroughly for any errors.
- Abstracts are limited to one page; make sure all your content fits.

Figure 1 - Optional caption, size 10, italics, centred below the figure
