### Sept./Oct. DEI Themes

Sept. 15 - Oct. 15 is LatinX/Hispanic Heritage month. Lilian shared the Monarch Butterfly Project, an art project to celebrate the migration from Latin America to the U.S. and accomplishing your dreams. The overall reaction to this was very positive. Lilian will reach out to Will and the art teacher to work through the details of bringing this to life at LVE. Also including collaboration from students and families. Mr. Peregoy added an interesting note, that this conversation around migration and monarchs could also be integrated in the science curriculum, providing a link between STEM, Life Skill and Theme. Mr. Peregoy and Ms. Camarda have the information to share with their colleagues. From last year's repository for LatinX month, there is

also a "Did You Know?" sheet, which can be used in the classroom or as part of an assembly discussion.
