Abstract

The abstract should be 150–250 words, single-spaced, in 12 pt Jamia2014. It is neither an “introduction”, nor the conclusion of the discussion. Instead, it should contain, but not be limited to: (1) the main question and the background of the discussed issue; (2) the research position; (3) how the question is discussed in the article; and (4) the main result of the article discussion and argumentation. Other important matters discussed in the article that significantly contribute to the final result of the research may be noted here, but you have to consider, however, the limited space of the abstract.

[Put here the Indonesian version of your abstract.]

Keywords: Mention only specific concepts [word or phrase], 3-5 concepts, truly conceptual words, and not too general ones.

INTRODUCTION

The introduction is written in font Garamond, size: 12, line spacing: multiple (1.15). The introductory section describes the background of the research problem, literature facts, research gaps, and the purpose of writing. The problem must be clear and requires research to solve the problem. For Arabic writing or fragments of verses from the Qur'an, the Traditional Arabic font size is 16. Foreign language words or phrases are written in italics, while Arabic-Latin transliteration refers to Arabic-Indonesian transliteration according to the SKB 3 Menteri. The body of paper must be elaborated between 4500-9.000 words (maximum) including abstract and references.

METHOD

The method is optional for original research articles. This method is written in descriptive and should provide a statement regarding the methodology of the research. This method as much as possible to give an idea to the reader through the methods used. This Method are optional, only for original research articles.

RESULTS AND DISCUSSION

The result is a description of the data obtained which is required from the research question. The results must answer the problems that have been raised in the research question. Research results must be clear and concise. Results should summarize scientific findings rather

than simply convey detailed data. The discussion is the main part of the article that discusses and analyzes the results of the research using the main theory and other supporting theories, to find novelty from other studies. Then, if the data translation requires a table or chart, it can be included in this sub-discussion with an example as follows:
