

Prior to MSTEP testing, please be sure all students perform the following steps on the Chromebook they will be using for testing. This will also update/install the MSTEP program and avoid delays on test day.

1. At the login screen, click APPS in the bottom left corner and then find the DRC INSIGHT Online Assessment icon. Click this.

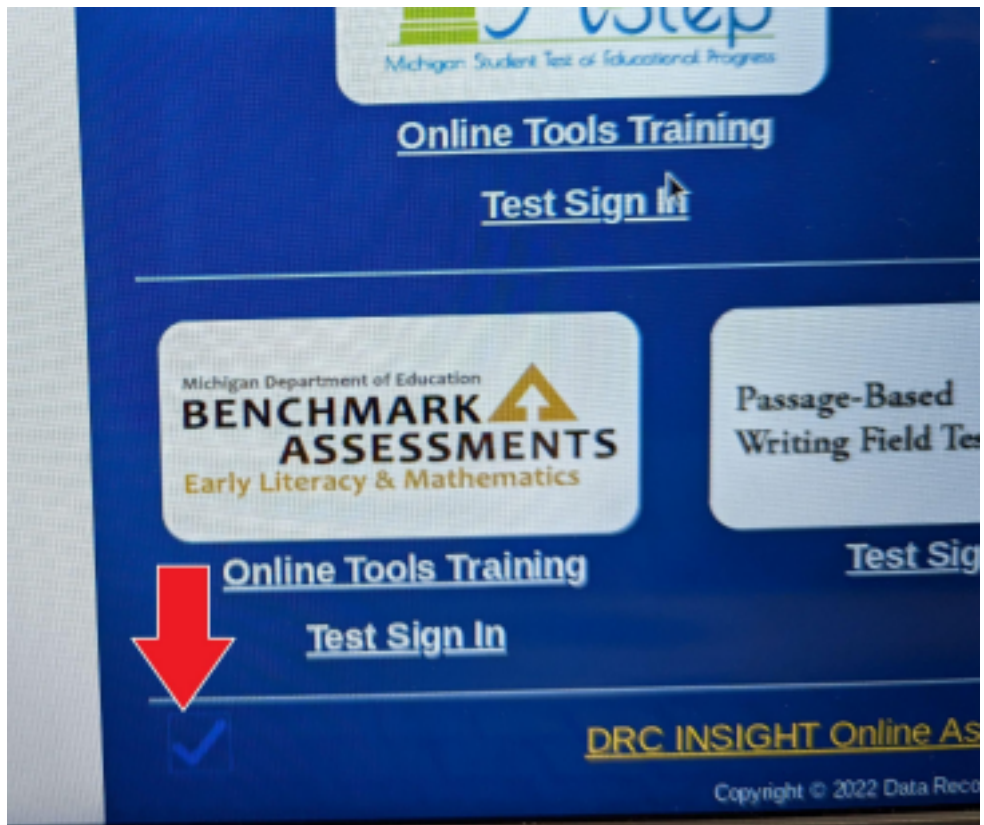

2. On the next screen, choose "Michigan Online Assessments".

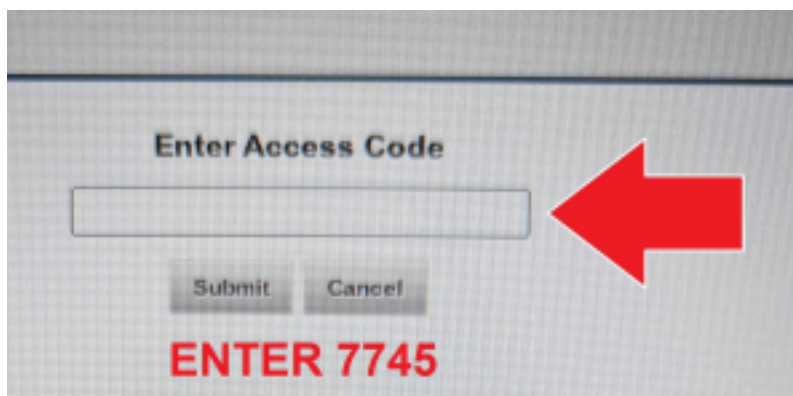

3. At the test selection screen find the check box in the bottom left corner of the screen and

click that.

4. After a brief delay, you should see an area to enter the Access Code. Type in 7745 and click Submit.

5. The device readiness test will run automatically. **Ensure that all tests have green check boxes under Status. IF NOT - please contact someone in the Technology Department via a support ticket.**
