🎄🔴 ANIMATION RULES 🔴🎄

- Basic map criteria, no gacha, no Roblox, no art theft, no tracing, no ai, no nsfw or suggestive
- No major blood or gore because this is supposed to be a silly and lighthearted map! Joke violence and minor blood are okay though
- Your part must be completed within 24 hours! If you cannot make it in 24 hours, you are allowed *up to two more extensions* which will make a total of 72 hours. After that, if your part still isn't done, you will be kicked.
- Collabs are allowed!
- Green screen transitions are not allowed because they're annoying to edit
- AMV, PMV, and tweening are all allowed!
- Discord is required to join the map, this is for communication purposes! The link to the server can be found in the video description
- This map is 100% beginner friendly
- For the code, tell me your favorite part about Christmas!
- Backgrounds cannot be plain white! You may use google images, colors, patterns, gradients, a drawn background, etc.
- While this is a spoof map, your part needs to be fully colored! Your part needs to have *actual content* in it, this includes but is not limited to sketched parts, doodling/scribbling, a single still image, the entire part traced over memes (one or two scenes is fine), straight up google images (these are fine for backgrounds *only*), reusing old art, etc.
- You may *only* use OCs! No characters from existing media or fandoms. For example, a wings of fire OC would be allowed, but you cannot animate Glory or any of the other canonical characters. This applies to all fandoms!
