PGRASG serves as the student government for the Gorgeous Prince George's County. We are to act as the voices of the 131,000+ students within the county. We also serve as a resource and networking organization for all Student Governments within the county. PGRASG consists of the PGRASG executive board and the multiple SGAs of the high schools and middle schools that make up our county. Together we work with the Student Member of the Board of Education to advance student voice in the county!
