

Installing Scratch Jr

Ipads

- Go to the App store and search Scratch Jr
- Click “Get”
- Enter your username and password to install

Chromebooks (*New*)

Use the Scratch Jr chrome extension and NOT the app in the playstore. That app will not work.

- Students will log into a Chromebook and open Chrome web browser.
- Go here: https://chrome.google.com/webstore/detail/scratchjr/oipimoeophamdcmjcfameoojlbhbgjda?utm_source=chrome-app-launcher-search
- Click “Add Extension”
- When a pop-up window appears, click “Add App”
- Allow App to download. When it’s finished, you will get a message that says “Scratch Junior successfully installed.”
- Click “Launch App.” The app will open and students can begin to use it.

How to access Scratch Jr after it has been downloaded:

- The next time students log into the chromebook, they will just need to click on the launcher (circle) on the bottom left side of the dock. When they click on that, they will see a symbol for Scratch Jr. Click on it to launch the app.

Desktop Version for DELL Teacher Laptops

- Go here: https://jfo8000.github.io/ScratchJr-Desktop/
- Scroll down to the bottom of the page and look for the Windows Download
- Click the big blue bottom that says “Download Win”
- Follow the directions from there
