Week Three Discussion Forum: What Are You Looking For in an Internship?

This will be a "Q and A" forum, so you won't be able to see other students' posts until a half hour after you post your own response.

Purpose

This forum asks you to think about what an ideal placement site would look like for you.

Tasks

Think about the type of internship experience you would like to have, and discuss what an ideal site might look like. Think about the following topics–some of these you might have definite preferences about, some you may be more flexible:

- Type of services provided
- Population served
- Office-based work or field-based (home visits, etc.)
- Skills Needed
- Public Agency or Private
- Religiously-based organization or secular
- Any other preferences you have.

Criteria for Success

Remember that your original post must be at least 150 words, and you must respond to at least one other student (75 word response) for full points. This forum will close Monday, April 24th at noon.
