

## LEE 166: Disciplinary Literacies & Integrated Curriculum Syllabus

Fall 2024

### Instructor Information

Instructor Name: Dr. Jill Bonds

Department: Literacy, Early Education, Bilingual & Special Education

Email / Telephone: [jillbonds@mail.fresnostate.edu](mailto:jillbonds@mail.fresnostate.edu) 559-684-2920

Office: FSU South Valley Campus, RM 113 or online via zoom

Student Support Hours: Tuesdays 11:50-12:30 pm and by appointment

### Course Information

Course Modality: In person

Course ID: 74901

Units: 3.0

Class Meeting Location & Time: Thursdays 9:00am-11:50am

Canvas: [fresnostate.instructure.com](https://fresnostate.instructure.com)

Course description: Literacy plays an important role in subject matter instruction and cannot be separated from the learning of academic content. Through literacy practices, students read, investigate, speak, debate and write about the content they study. Recognizing the important role literacy plays in students' abilities to understand and apply disciplinary knowledge, the **California Common Core Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects** and the **California English Language Arts/English Language Development Framework** require teachers to develop students' literacy abilities across all content areas. Through an inquiry-based approach to learning, candidates will develop a deep understanding of the literacy practices of various discipline areas (i.e., math, science, social studies, visual/performing arts) and how to support children's understanding of and competence with these disciplinary practices. Applying the 4Es Model of disciplinary literacy instruction (Engage, Engineer, Examine, Evaluate; Moje, 2015), candidates will collaborate to develop and implement a cross-disciplinary inquiry project that blends literacy, technology, visual/performing arts and multiple content areas.

## Required Course Materials

### Inclusive Pedagogies

Authors: Christina Page; Jennifer Hardwick; and Seanna Takacs OER

[Inclusive Pedagogies \(pressbooks.pub\)](#)

### Supporting Secondary Teachers' Critical Disciplinary Literacies

Author: Jeanne Dyches

[Introduction – Supporting Secondary Teachers' Critical Disciplinary Literacies \(pressbooks.pub\)](#)

Here are some recommended texts if you would like to explore the course concepts more deeply:

1. Altieri, J. L. (2011). *Content counts!: Developing disciplinary literacy skills, K–6*. Newark, DE: International Reading Association. **Available for FREE Download through Fresno State E-brary at the following link:** [Content Counts](#)
2. Brock, C. H., Goatley, V. J., Raphael, T. E., Trost-Shahata, E., & Weber, C. M. (2014). *Engaging students in disciplinary literacy, K-6: Reading, writing, and teaching tools for the classroom*. New York: Teachers College Press. **Available for FREE Download through Fresno State E-brary at the following link:** [Disciplinary Literacy K-6](#)
3. Schoenbach, R., Greenleaf, C., & Murphy, L. (2012). *Reading for understanding: How Reading Apprenticeship improves disciplinary learning in secondary and college classrooms* (2nd edition). San Francisco: Jossey-Bass. **Available for FREE Download through Fresno State E-brary at the following link:** [Reading for Understanding](#)
4. Wiggins, G. P., & McTighe, J. (2011). *Understanding by design guide to creating high-quality units*. Alexandria, VA: ASCD. **Available for FREE Download through Fresno State E-brary at the following link:** [Understanding by Design](#)
5. [Literacy Leadership Brief: Content Area and Disciplinary Literacy: Strategies and Frameworks \(literacyworldwide.org\)](#)

## Course Specifics

**Course goals:** Develop candidates' capacity to:

1. Adapt subject matter curriculum, organization, and planning to support the acquisition and use of academic language within learning activities to promote the subject matter knowledge of all students, including the full range of English

learners, Standard English learners, students with disabilities, and students with other learning needs (TPE 1.4; 1.6; 3.2; 3.5; 3.6; 6.1, 7.3 I; 7.4 P; 7.9 I)

2. Promote students' critical and creative thinking and analysis through activities that provide opportunities for inquiry, problem solving, responding to and framing meaningful questions, and reflection (TPE 1.5, 7.6 P; 7.7 I)
3. Demonstrate knowledge of subject matter, including the adopted California State Standards and curriculum frameworks (TPE 3.1, 7.7 A, 7.2 I; 7.4 I, P; 7.8 A)
4. Plan, design and implement disciplinary and cross-disciplinary learning sequences, including integrating the visual and performing arts and digital tools (TPE 1.7; 3.3; 4.8; 6.1)
5. Design and implement assessment practices that reflect the interconnectedness of academic content areas and related student skills development in literacy, mathematics, science, and other disciplines across the curriculum, including multiple means for students to demonstrate their knowledge, and student self-assessment (TPE 3.4; 4.3; 5.1; 5.3; 6.1, 7.1 P; 7.6 I; 7.10 A)
6. Access resources for planning and instruction, including the expertise of community and school colleagues through in-person or virtual collaboration, co-teaching, coaching, and/or networking (TPE 4.6, 7.6 P)

## STUDENT LEARNING OUTCOMES

1. Compare how reading, writing, talking, listening and viewing are used within different disciplines (7.6 I, P)
2. Analyze the student knowledge required for a variety of disciplinary texts and tasks (7.8 I, P, A, 7.9 I, P, A).
3. Adapt generic literacy instructional strategies to meet the reading and writing demands of different discipline areas (7.7 P, 7.11 I, P, A).
4. Design and implement an inquiry project using disciplinary literacy instructional practices that integrates technology, visual/performing arts, and multiple content areas (7.8 I, P, A, 7.9 I, P, A)
5. Design and implement instruction that guides students through the phases of inquiry, including generating questions, gathering and analyzing sources, synthesizing claims and evidence, critically evaluating and revising arguments, and communicating findings (7.1 I, P 7.2 A, 7.3 I, P)
6. Design and implement assessment practices that analyze students' inquiry skills and content knowledge (7.9 A, 7.10 A)

7. Use assessment information to design and implement instruction that supports identified student needs (7.10 I, P, A)

## Major Assignment Descriptions

### Disciplinary Literacy Project Report & Presentation

Students will collaborate in subject area or grade level groups to construct a report and presentation regarding the ways that literacy is used within a particular discipline or content area, and how to scaffold and support literacy tasks so that the literacy components, alongside the content components are aligned with both the English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects the ELD Standards and ELA/ELD Framework; the concepts of Universal Design for Learning; and the California Dyslexia Guidelines, in such a way that all learners can access disciplinary literacy in grade-appropriate and student-led ways. The project will focus on broad concepts of literacy to include: reading, writing, and communicating. The report and presentation will be based on information collected through interviews, article reviews, and student reflections.

- [Report & Presentation Rubric](#)

#### Instructional Activities

Candidates will complete three assignments using the instructional activity learning cycle. This cycle will involve 4 phases: 1. Learning about the core instructional practice through instructor modeling or examining videos and cases; 2. Preparing for and rehearsing the core instructional practice through collaborative planning and microteaching; 3. Enacting the core instructional practice with students in a classroom through co-teaching; and 4. Analyzing the enactment through video analysis and reflective writing and discussion. The Instructional Activities will be assessed based on the candidate's competence in identifying instructional actions (moves), interpreting the impact of these moves, and reflecting on alternative moves to achieve the learning goals.

The 3 core instructional practice assignments are:

#### *1. Initiating Inquiry*

This assignment can be the first lesson in the Inquiry Unit assignment (described below). Candidates will develop a lesson to stimulate student curiosity around a topic of relevance. Through strategic questioning and discussion, candidates will guide students to develop and refine meaningful questions to investigate further through the inquiry process.

- [Rubric](#)

#### *2. Text/Task Analysis*

This assignment can be completed as part of the Inquiry Unit assignment (described below). Candidates will analyze the texts/tasks for one lesson. Through this analysis, candidates will identify the content, textual, language, and disciplinary literacy knowledge demands of the texts/tasks; determine the areas where students will need support; and adapt instruction or materials to support students' successful learning through instructional moves that are aligned with the [California Dyslexia Guidelines](#), as well as the [California English Learner Roadmap](#).

- [Rubric](#)

### *3. Formative Writing Assessment & Instruction*

This assignment can be completed as part of the Inquiry Unit assignment (described below). Candidates will describe a writing lesson that they will analyze, then identify systematic ways that the lesson fosters writing in the classroom overall.

A [template](#) is provided for the reflection portion of the assignment, as well as a rubric to analyze student writing produced and identify areas of needed support. Candidates will use the state literacy standards and assessment results to guide the development of instruction to support students' successful learning, implement the instruction, and reflect on the outcomes of their instructional moves.

- [Rubric](#)

### **TOTAL Interdisciplinary Inquiry Unit**

Candidates will design an instructional unit (5 lessons) focused on a topic an inquiry question. Applying the 4Es Model of disciplinary literacy instruction (Engage, Engineer, Examine, Evaluate; Moje, 2015), Candidates will collaborate to develop and implement a cross-disciplinary structured inquiry project. The project unit will blend literacy, technology, visual/performing arts and multiple content areas to engage students in authentic disciplinary practices. Unit contains 5 lessons: each lesson designed is 60 points-- total 300 points Integration: (across the 5 lessons a variety of subjects are addressed): 50 points Literacy: EVERY LESSON contains the application or development of Literacy skills—50 points

**400 POINTS**

- [Rubric](#)

### ***Text Sets/Picture Book Think Sheet***

Students will focus on grades TK - 3. First, they will need to choose a book that they plan to use for this activity that could fit as part of a content themed text set, then think

about each foundational skill area listed in the provided template and briefly describe an activity that could be used with the chosen text to practice that particular foundational skill in context, using the content as a vehicle to engage children in practice. They will also describe scaffolds and supports that may be helpful in providing equitable access through a UDL lens to the activities for multilingual learners and those with reading disabilities. After completing the chart, students will briefly describe a writing activity that can align with the content, help children make meaning of the disciplinary concepts in the chosen text. Students should consult the ELA/ELD Framework and the CA Dyslexia Guidelines to guide their instructional decisions.

- [Click here to make a copy of the template](#)
- [Rubric](#)

**Attendance:** All students should attend all courses. If a student is ill or needs to miss, please contact me directly for makeup work and assignments. Please communicate with me to better support you.

**Grading policy:**

- 100 points-Disciplinary Literacy Project (11%)
- 50 points-Disciplinary Presentation (5.5%)
- 50 points-Lesson 1 (5.5%)
- 50 points-Lesson 2 (5.5%)
- 50 points-Lesson 3 (5.5%)
- 200 points-Reflections/Group Work (22%)
- 400 points-Final Interdisciplinary Inquiry Unit (45%)
- Total- 900 points (100%)

A grade of C or better is required to pass this class.

**Assignments and Grading**

Assignment	Points	Student Outcomes	TPEs
Disciplinary Literacy Project Report	100	1, 4	3.1
Disciplinary Literacy Project Presentation	50	1, 4	3.1

IA 1: Initiating Inquiry	50	2, 5	1.5; 1.7; 3.1; 3.3; 4.6; 4.8
IA 2: Text/Task Analysis	50	1, 3, 4	1.4; 1.6; 3.2; 3.3; 3.5; 3.6; 6.1
IA 3: Formative Writing Assessment/Instruction	50	4, 6, 7	3.1; 3.4; 4.3; 5.1; 5.3; 6.1
Interdisciplinary Inquiry Unit	100	1, 2, 3, 4, 5, 6, 7	1.4; 1.5; 1.6; 1.7; 3.1; 3.2; 3.3; 3.4 3.5; 3.6; 4.3; 4.6; 4.8; 5.1; 5.3; 6.1
Total	400		

Grades will be posted on Canvas so you can monitor your progress. Final grades will be determined according to the following scale: 90%= A, 80-89%= B, 70-79= C, 60-69%= D, 59% or below = F. (See the rubrics in the syllabus for further clarification on grading)

## Course Policies & Safety Issues

Please review [University Policies](#) to ensure coherence with any classroom policies and, in particular, the University Policy on Course Syllabi and Grading (APM 241)

You may wish to remind students "If you are absent from class, it is your responsibility to check on announcements made while you were away." If you intend to grade on participation or tardiness, be explicit in explaining how you will do so.

*The campus recommends that all individuals who access any in-person program or activity (on-or off-campus) operated or controlled by the University follow COVID-19 vaccine recommendations adopted by the U.S. Centers for Disease Control and Prevention (CDC) and the California Department of Public Health (CDPH) applicable to their age, medical condition, and other relevant indications and comply with other safety measures established by each campus.*

Please remember that the same student conduct rules that are used for in-person classroom instruction also apply for virtual/online classrooms. Students are prohibited from any unauthorized recording, dissemination, or publication of any academic presentation, including any online classroom instruction, for any commercial purpose. In addition, students may not record or use virtual/online instruction in any manner that

would violate copyright law. Students are to use all online/virtual instruction exclusively for the educational purpose of the online class in which the instruction is being provided. Students may not re-record any online recordings or post any online recordings in any other format (e.g., electronic, video, social media, audio recording, web page, internet, hard paper copy, etc.) for any purpose without the explicit written permission of the faculty member providing the instruction. Exceptions for disability-related accommodations will be addressed by Student Disability Services working in conjunction with the student and faculty member.

**Plagiarism Detection:** The campus subscribes to Turnitin, a plagiarism prevention service, through Canvas. You will need to submit written assignments to Turnitin. Student work will be used for plagiarism detection and for no other purpose. The student may indicate in writing to the instructor that he/she refuses to participate in the plagiarism detection process, in which case the instructor can use other electronic means to verify the originality of their work. Turnitin Originality Reports WILL be available for your viewing.

**Dispute Resolution:** If there are questions or concerns that you have about this course that you and I are not able to resolve, please feel free to contact the Chair of the department to discuss the matter.

**Intellectual Property:** All course materials, including but not limited to the syllabus, readings, quiz questions, exam questions, and assignments prepared by the instructor are property of the instructor and University. Students are prohibited from posting course materials online (e.g., Course Hero) and from selling course materials to or being paid for providing materials to any person or commercial firm without the express written permission of the professor teaching this course. Doing so will constitute both an academic integrity violation and a copyright violation. Audio and video recordings of class lectures as well as images of chat or messages shared during course sessions are prohibited unless I give you explicit permission in advance. Students with an official letter from the Services for Students with Disabilities office may record the class if SSD has approved that service. Otherwise, recordings of lectures are included in the intellectual property notice described above. These provisions exist regardless of the modality of the course. That is they apply to in-person, hybrid and online courses.

**Student Ratings of Instruction:** In the final weeks of the semester, you will be asked to complete a short survey to provide feedback about this class. The primary goal of student ratings is to help your instructor improve the class. Feedback will also be reviewed by the department chair and the college dean. You will be given 15 minutes of class time to complete student ratings. Please offer feedback honestly and thoughtfully. Your participation is appreciated. You can access your student rating surveys and get more information at [Fresno State Student Ratings for Instruction \(SRI\)](#)

## University Policies

**Students with Disabilities:** Upon identifying themselves to the instructor and the university, students with disabilities will receive reasonable accommodation for learning

and evaluation. For more information, contact Services to Students with Disabilities in the University Library, Room 1202 (278-2811).

**The following University policies can be found on the web at:**

- [Adding and Dropping Classes](#)
- [Cheating and Plagiarism](#)
- [Computers](#)
- [Copyright Policy](#)
- [Disruptive Classroom Behavior](#)
- [Honor Code](#)
- [Title IX](#)

Fresno State is committed to fostering a safe, productive learning environment for all students. Title IX and CSU policy prohibit discrimination on the basis of sex, which includes sexual harassment, domestic and dating violence, sexual assault, sexual exploitation, and stalking. We understand that sexual violence can undermine students' academic success and we encourage students who have experienced some form of sexual misconduct to access appropriate resources so they can get the support they need and deserve.

As an instructor, I have a mandatory reporting responsibility as a part of my role. It is my goal that you feel comfortable sharing information related to your life experiences in classroom discussions, in your written work, and in our one-on-one meetings. I will seek to keep the information you share private to the greatest extent possible. However, I am required to report information I receive regarding sexual misconduct or information about a crime that may have occurred during your time at Fresno State.

Students can report incidents of alleged sexual misconduct to either or both of the following resources:

Title IX and Clery Compliance Office | [fresnostate.edu/titleix](https://fresnostate.edu/titleix) | 559.278.5003

Fresno State Police Department | [fresnostate.edu/police](https://fresnostate.edu/police) | 559.278.8400

Students can access confidential support from two separate resources on campus:

Survivor Advocates | [fresnostate.edu/survivoradvocate](https://fresnostate.edu/survivoradvocate) | 559.278.6796

Counseling Services | [studentaffairs.fresnostate.edu/health/counseling](https://studentaffairs.fresnostate.edu/health/counseling) | 559.278.2734

If you have concerns and you are unsure who to contact, please visit the Concern & Action Guide.

DISCIPLINARY LITERACY PROJECT REPORT RUBRIC			
	Excellent- 20 points	Fair- 11-19 points	Poor- 2-10 points
<b>Literature Review</b>	1-2-page summary and analysis for 4 articles related to the literacy practices of the selected disciplinary area. Synthesis accurately links common	1-2-page summary and analysis for 4 articles related to the literacy practices of the selected disciplinary area. Synthesis does not clearly link all areas (common findings,	1-2-page summary and analysis is not completed for 4 articles related to the literacy practices of the selected disciplinary area. Synthesis does not clearly link all areas (common findings,

	findings, differences, critiques, and implications for classroom instruction across all 4 articles	differences, critiques, and implications for classroom instruction) across all 4 articles	differences, critiques, and implications for classroom instruction) across all 4 articles
<b>Expert Interviews</b>	2 Expert interview transcripts are included. Synthesis accurately identifies similarities/differences and unique discoveries across both interviews, using quotes as evidence. Synthesis accurately identifies implications for classroom instruction	2 Expert interview transcripts are included. Some similarities/differences and unique discoveries are not clearly linked across interviews and/or lack quotes as evidence. Implications for classroom instruction are not clearly linked to interview data	2 Expert interview transcripts not included. Report lacks identification of similarities and differences and unique discoveries across interviews and/or lacks quotes as evidence. Implications for classroom instruction are not clearly linked to interview data and/or are inaccurate
<b>Summary of Disciplinary Literacy Practices</b>	Summary demonstrates thorough understanding of the literacy practices of the discipline, including all areas of reading, writing, communicating, and habits of thinking. Summary findings clearly supported by data sources	Summary demonstrates moderate understanding of the literacy practices of the discipline and includes most areas of reading, writing, communicating, and habits of thinking. Summary findings not clearly supported by data sources	Summary demonstrates minimal understanding of the literacy practices of the discipline and/or includes few areas of reading, writing, communicating, and habits of thinking. Summary findings not clearly supported by data sources
<b>Instructional Implications</b>	3-4 critical insights about specific implications for classroom practice that supports disciplinary literacy, including a minimum of one of the critical insights related specifically to Universal Design for Learning for students identified as having Dyslexia ensuring equitable access to disciplinary literacy/inquiry. Insights must be aligned with current and peer reviewed research, including but not limited to the California Dyslexia Guidelines.	Vague implications for classroom practice are presented or are not supported by report evidence, and/or there are not any insights that tie back to the California Dyslexia Guidelines.	Classroom implications are lacking.
<b>Writing Mechanics</b>	Organization is logical. Report is carefully written and edited, free of serious convention errors. All citations provided in body of text and reference section accurately adhere to APA style	Organization is adequate but at times difficult to follow. Minor convention errors do not interfere with comprehensibility. Minor errors in APA style	Report is disorganized and difficult to follow. Serious convention errors. APA style is not followed

<b>DISCIPLINARY LITERACY PROJECT PRESENTATION RUBRIC</b>			
	Excellent- 13 points	Fair- 7-12 points	Poor- 1-6 points
<b>Project Elements</b>	All elements of report clearly presented, including literature review, expert interviews, and classroom applications	Most elements of report clearly presented	Few elements of report are clearly presented
<b>Literacy Practices Analysis</b>	Presentation demonstrates clear understanding of the literacy practices of the discipline, including reading, writing, communicating, and habits of thinking. Analysis is supported by specific reference to data sources	Presentation demonstrates a moderate understanding of the literacy practices of the discipline and includes most areas of reading, writing, communicating, and habits of thinking. Analysis is supported by specific reference to data sources	Presentation demonstrates a minimal understanding of the literacy practices of the discipline and includes few areas of reading, writing, communicating, and habits of thinking. Analysis is not clearly supported by specific reference to data sources
<b>Literacy Practice Examples</b>	Presentation includes 2-3 examples/models to illustrate the literacy practices of the discipline and a minimum of one example of how to scaffold and support using UDL for all learners within the context of disciplinary literacy experiences as aligned to the California Dyslexia Guidelines . Examples effectively engage the audience and enhance audience understanding of the literacy practices	Presentation includes 1 example/model to illustrate the literacy practices of the discipline. Example does effectively engage the audience and enhance audience understanding of the literacy practice	Presentation includes 1 example/model to illustrate the literacy practices of the discipline. Example does not effectively engage the audience nor enhance audience understanding of the literacy practices
<b>Mechanics</b>	keeps eye contact with audience most of the time; speaks clearly; All team members participate equally	makes infrequent eye contact; speaks clearly most of the time; Most team members participate equally	does not look at audience; mumbles or speaks too quickly or slowly; Few team members participate

## Instructional Activity: Initiating Inquiry Rubric

	Proficient- 10 points	Emerging- 5-9 points	Beginning- -1-4 points
<b>Questioning Techniques</b>	Candidate is able to identify various forms of questioning (open/closed; high/low cognitive) and clearly articulate intention for using different forms to support initiating inquiry, including assessing prior knowledge; prompting elaboration and justification; and redirecting	Candidate is able to identify various forms of questioning (open/closed; high/low cognitive) but struggles to clearly articulate intention for using different forms to support initiating inquiry	Candidate struggles to identify various forms of questioning (open/closed; high/low cognitive) and to clearly articulate intention for using different forms to support initiating inquiry
<b>Discussion Techniques</b>	Candidate is able to identify various facilitation and grouping procedures and clearly articulate intention for using these procedures to foster inquiry discussion, including student involvement, student encouragement, and student interaction	Candidate is able to identify various facilitation and grouping procedures but struggles to clearly articulate intention for using these procedures to foster inquiry discussion	Candidate struggles to identify various facilitation and grouping procedures and to clearly articulate intention for using these procedures to foster inquiry discussion
<b>Developing Inquiry Questions</b>	Candidate is able to identify the form of inquiry and instructional moves that guided the refinement of the driving question, making clear connections between the entry event and the learning goals	Candidate is able to identify the form of inquiry & some stages of formulating the driving question but struggles to make clear connections between the entry event and the learning goals	Candidate struggles to identify the form of inquiry and/or stages of formulating the driving question and to make clear connections between the entry event and the learning goals

<p><b>Impact of Instructional Moves</b></p>	<p>Candidate is able to accurately interpret the impact specific instructional moves had on all areas of student interest, engagement, and learning</p>	<p>Candidate is able to accurately interpret the impact specific instructional moves had on some areas of student interest, engagement, and learning</p>	<p>Candidate struggles to accurately interpret the impact specific instructional moves had on any of the areas of student interest, engagement, and learning</p>
<p><b>Reflective Action</b></p>	<p>Candidate is able to determine specific instructional adjustments for subsequent inquiry initiating lessons and articulates strong rationale for the adjustments to enhance student interest, engagement and learning</p>	<p>Candidate is able to determine specific instructional adjustments for future inquiry lessons, but does not articulate strong rationale for the adjustments to support student interest, engagement and learning</p>	<p>Candidate struggles to determine specific instructional adjustments for subsequent inquiry initiating lessons and to articulate strong rationale for adjustments to support student interest, engagement and learning</p>

## Instructional Activity: Text/Task Analysis Rubric

	Proficient- 13 points	Emerging- 7-12 points	Beginning- 1-6 points
<b>Analyzing Text/Task Demands</b>	Candidate is able to identify the 4 key knowledge demands (content, textual, language, and disciplinary literacy) for a particular lesson	Candidate is able to identify some of the 4 key knowledge demands (content, textual, language, and disciplinary literacy) for a particular lesson	Candidate struggles to identify most of the 4 key knowledge demands (content, textual, language, and disciplinary literacy) for a particular lesson
<b>Instructional Strategies</b>	Candidate is able to design lessons using instructional strategies and grouping structures to provide students support with all 4 key knowledge demands (content, textual, language, and disciplinary literacy) and to clearly articulate intention for using these practices.	Candidate is able to design lessons using instructional strategies and grouping structures to provide students support with most of the 4 key knowledge demands (content, textual, language, and disciplinary literacy) but struggles to clearly articulate intention for using these practices	Candidate struggles to design lessons using instructional strategies and grouping structures to provide students support with most of the 4 key knowledge demands (content, textual, language, and disciplinary literacy) and struggles to clearly articulate intention for using these strategies
<b>Impact of Instructional Moves</b>	<p>Candidate is able to accurately interpret how both specific instructional strategies and grouping structures influenced both student engagement and learning</p> <p>Instructional moves referenced strongly align with the California Dyslexia Guidelines and the California English Learner Roadmap</p>	<p>Candidate struggles to accurately interpret how both specific instructional strategies and grouping structures influenced both student engagement and learning</p> <p>Instructional moves referenced somewhat align with the California Dyslexia Guidelines and the California English Learner Roadmap</p>	<p>Candidate struggles to accurately interpret how any specific instructional strategies or grouping structures influenced either student engagement or learning goals</p> <p>Instructional moves referenced do not align with the California Dyslexia Guidelines and the California English Learner Roadmap</p>

<p><b>Reflective Action</b></p>	<p>Candidate is able to determine specific instructional adjustments for subsequent lessons and articulates strong rationale for how adjustments will support all areas of content, textual, language, and disciplinary literacy knowledge demands of texts/tasks</p>	<p>Candidate is able to determine specific instructional adjustments for subsequent lessons, but does not articulate strong rationale and/or address all areas of content, textual, language, and disciplinary literacy knowledge demands of texts/tasks</p>	<p>Candidate struggles to determine specific instructional adjustments for subsequent lessons regarding most areas (content, textual, language, and disciplinary literacy knowledge demands of texts/tasks) and struggles to articulate a strong rationale for the adjustments provided</p>
---------------------------------	---	--	---

## Instructional Activity: Formative Writing Assessment Rubric

	Proficient- 13 points	Emerging- 7-12 points	Beginning- 1-6 points
<b>Analyzing Writing</b>	Candidate selects appropriate rubric for genre of writing (narrative, explanatory, argumentative) and is able to identify strengths and weaknesses across all 3 domains (Purpose/Organization; Evidence/Elaboration; Conventions)	Candidate selects appropriate rubric for genre of writing (narrative, explanatory, argumentative) and is able to identify strengths and weaknesses for most domains (Purpose/Organization; Evidence/Elaboration; Conventions)	Candidate selects inappropriate rubric for genre of writing (narrative, explanatory, argumentative) and/or struggles to identify strengths and weaknesses for most domains (Purpose/Organization; Evidence/Elaboration; Conventions)
<b>Instructional Strategies</b>	<p>Candidate is able to design lessons using instructional strategies and grouping structures that address specific state standards and support identified needs.</p> <p>Instructional strategies include attention to text production, language use, and mechanics.</p> <p>Candidate is able to clearly articulate intention for using these practices</p>	<p>Candidate is able to design lessons using instructional strategies and grouping structures that address specific state standards and support identified needs.</p> <p>Instructional strategies include some attention to text production, language use, and mechanics.</p> <p>Candidate struggles to clearly articulate intention for using these practices</p>	<p>Candidate struggles to design lessons using instructional strategies and grouping structures to support identified needs and/or that are connected to specific state standards.</p> <p>Instructional strategies include minimal/no attention to text production, language use, and mechanics.</p> <p>Candidate struggles to clearly articulate intention for using these practices</p>

<b>Impact of Instructional Moves</b>	Candidate is able to accurately interpret the impact specific instructional strategies and grouping structures had on student learning	Candidate is able to accurately interpret the impact instruction had on student learning, but struggles to connect the outcome with specific instructional strategies and/or grouping structures	Candidate struggles to accurately interpret the impact instruction had on student learning and to connect the outcome with specific instructional strategies and/or grouping structures
<b>Reflective Action</b>	Candidate is able to determine specific instructional adjustments for subsequent lessons and articulates strong rationale for the adjustments to support student learning	Candidate is able to determine specific instructional adjustments for subsequent lessons, but does not articulate strong rationale for the adjustments to support student learning	Candidate struggles to determine specific instructional adjustments and to articulate rationale for adjustments to support student learning

## Text Sets/Picture Book Think Sheet Rubric

	Proficient- 13 points	Emerging- 7-12 points	Beginning- 1-6 points
<b>Analyzing Texts for Foundational Skills Opportunities</b>	Candidate is able to describe how to use a disciplinary picture book to model and have children practice 4 key foundational skills in developmentally appropriate, and contextually relevant ways.	Candidate is able to describe how to use a disciplinary picture book to model and have children practice 3 of 4 key foundational skills in developmentally appropriate, and contextually relevant ways.	Candidate struggles to describe how to use a disciplinary picture book to model or facilitate practice of foundational skills in developmentally appropriate, and contextually relevant ways.
<b>Text Choice and Standards Alignment</b>	Candidate is able to identify a disciplinary picture book that authentically provides opportunities for the teacher to highlight and facilitate foundational skills development and that is also aligned to a content standard at the targeted grade level.	Candidate is able to identify a disciplinary picture book that authentically provides opportunities for the teacher to highlight and facilitate foundational skills development, but was unable to connect the book to a content standard at the targeted grade level.	Candidate struggled to identify an appropriate text or standard as outlined in the assessment.
<b>Writing Activity</b>	Candidate is able to develop a disciplinary writing activity that aligns to the grade level writing standards and is connected authentically to the disciplinary text chosen.	Candidate is able to develop a disciplinary writing activity that aligns to the grade level writing standards but unable to connect the writing and the chosen text authentically.	Candidate struggles to develop grade-appropriate disciplinary writing activities.

## Interdisciplinary Inquiry Unit Rubric

*Rubric adapted from Galileo Education Network (2016)*

	Excellent- 17 points	Adequate 10-16 points	Poor 2-9 points
<b>Authenticity</b>	The scope of the unit emanates from a question, problem, issue or exploration that builds connections beyond the school, is meaningful and relevant to students, and provides students opportunities to share their findings with an authentic disciplinary and/or community audience	The scope of the unit is determined primarily by the mandated curriculum. Though students' interests are considered, there is a lack of authentic connections to disciplinary practices and/or the community	The scope of the unit is determined solely by the mandated curriculum and lacks relevance to students' interests, disciplinary practices and the community
<b>Academic Integration</b>	The unit clearly integrates multiple, specific disciplinary, literacy, and visual/performing arts standards in a cohesive manner, where all identified standards are integral to the inquiry process and culminating product	The unit includes multiple, specific disciplinary, literacy, and visual/performing arts standards, but the identified standards are not cohesively linked to support the inquiry process or product	The unit is designed around a single set of disciplinary standards
<b>Assessment</b>	Assessment is dynamic and embedded in the design of the unit from the onset, using a range of strategies, including peer and self-evaluation, to guide students' learning and teachers' instruction. Assessment reflects the interconnectedness of academic content areas and related student skills development in literacy, mathematics, science, and other disciplines across the	Assessment is embedded in the design of the unit from the onset and is used to guide students' learning and teachers' instruction. Assessment may be limited in reflecting the interconnectedness of content and skills development across discipline areas, providing students multiple means to demonstrate knowledge, and/or providing	Assessment is embedded in the design of the unit, but focuses on content knowledge acquisition, does not clearly guide instruction, and solely uses closed tasks to evaluate student learning

	curriculum, and provides students multiple means to demonstrate their knowledge	opportunities for peer and self-evaluation	
<b>Digital Tools</b>	Digital tools are used in ways that are appropriate to their use in the discipline(s); students use digital tools to gather and communicate information.	Digital tools are used in effective ways by the teacher to present content and support student engagement; students use digital tools primarily to access information	Digital tools are used solely by the teacher and solely to present content and promote student engagement
<b>Connecting with Community Expertise</b>	The teacher coordinates and designs opportunities for students to engage with and observer experts beyond the classroom to deepen their content knowledge, improve their inquiry skills, and refine their culminating product	The teacher coordinates and designs opportunities for experts to visit the class as guest speakers to deepen student content knowledge	Teacher does not draw upon disciplinary/community experts to enhance the inquiry unit
<b>Disciplinary Literacy Instruction (Moje 4Es) (Engage, Elicit/Engineer, Examine, Evaluate)</b>	Instruction throughout the unit applies all 4 components to support student learning of both disciplinary concepts and disciplinary literacy practices. Assignments, activities, and tasks <b>Engage</b> students to develop knowledge through techniques central to the discipline (i.e. field work, labs, interviews, studio work, construction, etc.). Teachers <b>Engineer</b> or design lessons that provide students support with all 4 key knowledge demands (content, textual, language, and disciplinary literacy). Assignments, activities, and tasks within the unit require students to <b>Examine</b> and <b>Evaluate</b> disciplinary language that encourage them to ask	Instruction throughout the unit applies most of the 4 components to support student learning of both disciplinary concepts and disciplinary literacy practices, but some components are not evident	Instruction throughout the unit applies few of the 4 components to support student learning of both disciplinary concepts and disciplinary literacy practices

	questions of: evidence (how do we know what we know?); viewpoint (who is speaking?); pattern and connection (what causes what?); supposition (how might things have been different?); why it matters (who cares?); and when, why, and how disciplinary language is and is not useful
