[My Portfolio](#)

SUMMARY

Using my education in sociology combined with my new UX Design skills, I am passionate about making the digital world accessible and equitable to people of all abilities. See linked portfolio for the various projects I have completed during my training.

EXPERIENCE

District 17 Arizona Democrat Party, Maine Democrat Party and Biden Presidential Campaign, Remote - Long Distance Volunteer

Phonebanker and Textbanker

Temp. August - November 8th, 2020

- Used various auto dialer systems and texting systems.
- Guided voters through a survey on how they were going to vote in the 2020 elections, and gathered information from voters who completed the survey.
- Provided information on the candidates, provided information about early voting options, and voting by mail.

Distressed Children & Infants International, Cheshire/Remote -

Volunteer for Marketing Department

August 2017- January 2018

- Managed social media and email accounts.
- Part of the team that collaborated on the design of the layout and look of the 2017 Conference brochure.

Post University Department of Disability Services, Waterbury,

CT/Remote - Research Specialist/Internship.

January 2014-May 2014.

- Analyzed University's ADA regulation compliance and recommended changes to increase accessibility beyond simply following ADA regulations.
- Recommended using Universal Design Standards for any future architecture to increase accessibility.
- Completed the internship and provided a report of my experience

working in the disability office concerning how Post University could be more welcoming to students of all abilities.
