1. Read and answer the questions.

Embroidery in Palestine has a history of more than 4000 years. For many centuries, women met to talk and embroider dresses after work.

Each village had its own design. Therefore, people knew where a woman came from by looking at **her** dress. Mothers passed on their skills to their daughters. Women had different dresses for different times of life. For example, there were different dresses for a young wife, a pregnant woman and a mother.

The embroidery at the front of a traditional dress has patterns of fruit, trees, flowers or birds. The colours also have a meaning. Green shows things growing, yellow shows the harvest and brown shows the earth.

Recently, Palestinian women have strengthened their traditional embroidery. New places of work have started up. The women here use the old designs but **they** make up new ones too. They have introduced a modern style. They sell their beautiful embroidered dresses all over the world .
