My Current Scores:

Speed: ____wpm Score ____

Accuracy: ____% Score ____

*If you have a score of 3 or 4 in both speed and accuracy, your typing minutes can be used for homework/projects as well as typing.com lessons or games.

*If you have a score of 2 or 1 in either speed or accuracy, you should work on the beginner lessons at typing.com for your typing minutes.

Directions for signing in to typing.com at home

Go to classroom.google.com

Students sign in using their school account username (email) and password. (found on a sticker in their assignment notebook)

Once signed in to Google Classroom, click on Technology/PLTW class.

Within this class, there will be a link on the Stream page as well as the Classwork page called Typing.com Student Login Page. Click on this link.

Once you are on the Student Sign In Page, Click the blue Google button.

Students should select their Google account IF it pops up & then click the blue button that says Allow at the bottom of the page. (this will probably only happen the first time they log in at home).

Once signed in, double check the top right corner to make sure your student's name appears.
