SKYHAWK ACADEMY

Est 2019 Bali, Indonesia

Programme Guide

Programme Guide

Around the world, millions of students are educated through independent academies, learning centres, private tuition programmes, and alternative education models outside traditional state systems. These pathways are not new. Independent academies and tutorial colleges have existed for decades.

UK data consistently shows substantially higher top-grade attainment in independent providers and academies compared with the broader state sector.

Status

Skyhawk Academy is a registered Learning Centre in Indonesia operating within the non-formal education sector. Skyhawk is not a statutory Indonesian national school (SD/SMP/SMA) and does not issue government-recognised national diplomas.

Registration details available upon request: NPSN & NIB permits are visible in the Admin Office.

Curriculum learning is guided by the National Curriculum of England.

Admissions & SEN

We do not provide specialist learning difficulties/SEN support. Admissions are based on a student's ability to access a structured mainstream academic programme independently within a group learning environment.

Our Learning Philosophy

Across all programmes, students progressively develop:

- Problem solving
- Communication
- Independence
- Critical thinking
- Creativity & art
- Responsibility and resilience

These competencies are embedded across subjects and developed progressively through each key stage.

Student Life & Enrichment

Student life at Skyhawk Academy is designed to extend learning beyond the classroom through meaningful, structured experiences.

Project-Based Learning & Humanities

Project-based learning is embedded across Humanities, Civics, Film Studies, and cross-curricular themes, allowing students to apply knowledge in real-world contexts.

Excursions & Experiences

- Study tours
- Excursions and field learning
- Camp experiences, including Lovina residential trips
- Community and leadership activities
- Occasional themed overnight & community bonding events

Creative & Performance Arts

Performance is a key part of student development. Students engage in music, drama, dance, and visual storytelling through curriculum and enrichment activities.

Annual major productions include:

- Halloween Runway Celebration
- Nyepi Ogoh-Ogoh Cultural Production
- Graduation Show Performance

These events integrate Balinese cultural traditions — including Ogoh-Ogoh creation and traditional dance — with contemporary singing, dance, and drama.

Programmes

Early Years Programme Ages 4–6	Early Years

CORE AREAS	LEARNING FOCUS
• Communication & Language • Personal, Social & Emotional Development • Early Literacy • Early Numeracy • Physical Development • Understanding the World • Expressive Arts & Design	• Curiosity and exploration • Communication and confidence • Routine and independence • School readiness

Upper Secondary / Key Stage 4 — *Coming 2027*

The programme will continue Skyhawk's structured pathway toward Cambridge IGCSE, with formal examinations accessed through accredited partner schools and authorised examination centres.

Assessment & Academic Progress

Student progress is monitored through a multi-source assessment framework designed to identify learning gaps, guide teaching and intervention, set achievable targets, and monitor academic growth over time.

ASSESSMENT TOOLS

- IXL diagnostic baseline & progress tracking
- Skill checkpoint data
- Cambridge-aligned assessment materials
- Teacher assessment and classroom evidence

DATA IS USED TO

- Identify learning gaps
- Guide teaching and intervention
- Set achievable learning targets
- Monitor academic growth over time

Minimum Enrolment Commitment

Skyhawk Academy operates on a minimum one academic year enrolment commitment following successful completion of the Trial Month process. As a long-term educational programme, formal academic reports, transfer documentation, internal completion certificates, and related academic records are issued only upon completion of the minimum enrolment period.

This policy supports continuity of learning, meaningful assessment, responsible allocation of school resources, and the long-term educational value of the programme for all families.
