## I. BACKGROUND INFORMATION

### a. The EuroCluster Rural Tourism Project

The EuroCluster Rural Tourism Project (ECRT), funded under the European COSME Programme, will support at least 190 rural tourism SMEs by improving selected digital, green and soft/social competences. This project addresses specifically the needs of these micro and nano SMEs that are still lagging behind in the green and digital transition. Rural Tourism and similar services such as Eco-Tourism, Farm-Tourism etc. respond to new trends of the European and worldwide tourism demand, increased by the ongoing COVID-19 pandemic that generates additional demand for services of this type. This project provides a unique opportunity to upscale activities and at the same time, create a critical mass of European rural tourism services in 15+ countries that are supported under this form of collaboration with a vision of internationalization. This project reduces “digital and green fear” by offering simple, easy-to-understand knowledge improvement that “picks up SMEs where they stand”, proposes practical solutions in the fields of digital and green internal management, marketing, and product development that are adapted to the realistic human and financial capacity of micro SMEs, creates a unified and coherent access to basic training, tools, and to “further reading” complementary resources for micro-SMEs, defines a methodology and tools for SME business support structures that can be replicated, adapted to specific local needs, and be translated into different languages and the challenge to keep up with new trends, including digital and green innovations. Support will be provided through pre-approved external Assistance Service Providers (ASP) selected through an open call. The SME may select another ASP for the delivery of support, but the consortium needs to approve and to train them in order to ensure the quality of the services offered.

### b. Objectives of the Call for participation

Through this call for proposals, the EU RURAL TOURISM project will support tourism SMEs (at least 190), by improving their digital, green and social maturity, skills, and capacities. The participants will be working closely with experts to bridge the digital, eco-sustainability and soft/social skills gap. The following table shows the total budget of this Call and its distribution in the Consortium Partners:

Partner	Total indicative available budget	Minimum number of SMEs per partner
Venetian Cluster	100,000.00 euros	20
Czech National Cluster Association	50,000.00 euros	10

Asociatia de Dezvoltare Intercomunitara Harghita	50,000.00 euros	10
Asociación Cluster De Turismo Sostenible de Aragón	50,000.00 euros	10
Federation Europeenne de Tourisme Rural (Ruraltour)	500,000.00 euros	100
EURACADEMY Association	200,000.00 euros	40
<b>TOTALS</b>	<b>950,000.00 euros</b>	<b>190</b>

**Non-cumulative award and no double financing:** Each action may give rise to the award of only one financial support pack per SME.

Non-retroactivity: Financial support shall not be awarded retroactively or for activities outside the duration of the project. Expenses must be incurred during the projects' period.

## **IV.EVALUATION PROCEDURE**

### **a. Evaluation process**

The evaluation process of the applications to the present Call for Participation will take approximately 3 weeks after the Call is closed. The steps are described below:

1. The project partners will start the administrative revision of all relevant applications and request additional documentation, if needed.
2. The "Eligibility criteria" (listed in ANNEX III) will be applied to discard non-eligible proposals. Proposals being marked as non-eligible will get a rejection letter for being classified as non-eligible.
3. Each partner will set up a two-member Evaluation Committee for the country or countries the partner is responsible for, and will distribute all eligible applications to the Evaluation Committee members for a check of conflict of interest.
4. If a conflict of interest for an evaluator is detected, another evaluator shall be nominated.
5. Each Evaluator will record his/her individual opinion on a standard evaluation form (Annex III).
6. The Evaluator Committee will agree on Consensus on all eligible applications.
7. The partner will collect the Evaluation Forms and submit them to a second level Consortium Evaluation Committee. All partners will be represented by one member in this committee. The six-members committee will review all the evaluation forms, approve the selection of SMEs and will generate a ranked list from the highest scored application to the lowest for each geographical area.
8. The Consortium Evaluation Committee will notify each partner about the number of SME selected which should add up to 190 SME, and 30 additional applicants (distributed among partners) will remain in a reserve list. The ECRT will publish the results of the Call for SMEs, including number and country of origin of all received proposals and a final list of selected SMEs, including the final recipients' legal name, country of origin, date of award, and duration of the support. The results will be published on the official website of the European Cluster

for Rural Tourism (ECRT) at [https://www.euroclusterruraltourism.eu/en/services/#Financial\\_support](https://www.euroclusterruraltourism.eu/en/services/#Financial_support), as well as on ECRT's social media channels. Additionally, each consortium partner will share the list on their respective websites and social media channels.

9. Once the evaluation process is completed, selected successful applicants shall be informed by email asking for confirmation of reception. A letter of acceptance will be forwarded to them in due course.
10. The letter of acceptance shall be signed by the selected applicant within 7 days after receiving the notification, otherwise the applicant's interest in participating in the Programme will be considered withdrawn, and its spot will be offered to the next ranked applicant from the reserve list.
11. All other applicants will be informed about their application not being successful, with an unsigned version of the consensus report of their application.
12. If applications do not reach the minimum score defined in the Full Call Details to cover the assigned number of SMEs for each partner, the call can re-open at a later date following the above procedure.
13. Signed individual and consensus forms plus other relevant documents shall be retained by the respective project partners / beneficiaries for at least 5 years.

## **b. Evaluation criteria of applications**

Each partner will delegate the task of evaluation to two competent evaluators, fluent in the language of the application covered by the EuroCluster Rural Tourism Consortium Partners (EN as transversal language, CZ, ES, FR, GR, IT, RO). An evaluation form will be completed for each eligible applicant. Only proposals ranked equal to or over 60 points in the Proposal Evaluation Form, Section A, and have successfully reached the minimum threshold in Section B will be pre-selected.

## **V. POST-SELECTION PROCEDURE AND REPORTING**

Each beneficiary and each ECRT partner (funding entity) will sign a bilateral specific agreement; signing this agreement, the beneficiary agrees and accepts the financial support and commits to implement the activities under its own responsibility, in accordance with the agreement's conditions and obligations. This reporting shall include all documentation and proof that justifies that planned and financed activities for this partial installment have been fully implemented. Each Consortium Partner can choose, case by case, to provide the FSTP in one payment at the end of the support period and upon receipt of the **Final Report**, or in two payments after completion of Phase 1 and Phase 2. Rules of payment will be defined within the Grant Agreement with each SME.

Each SME has to produce specific deliverables in order to receive and justify the payment in the form of a lump sum.

For the first installment, 40% of the total budget, the SME needs to confirm the completion of Phase 1 actions (interim report):
