

First Ten Presidents

George Washington - Washing Machine on Front Lawn of White House. Wash a Ton.

John Adams - Open washing machine you see atoms.

Thomas Jefferson - Chef's son cooks the atoms.

James Madison - the flames for the BBQ are coming from a mad sun.

James Monroe - the mad sun opens mouth and a boiling river pours out. In the river is a boat, and the boat is being rowed by money. (5 dollar bill)

John Quincy Adams - Money is not paying attention, and it bumps into a dam.

Andrew Jackson - Flowing over the dam are playing cards. They are all Jacks.

Martin Van Buren - The Jacks now think they are tires, and they are the tires on a van. The van has a bureau on top.

William Henry Harrison - The van grows hair. Hairy van.

John Tyler - The hair is snipped off and made into a tie. Which has a fishing lure on it. Boys are maybe 10 years old when they start wearing ties.
