6. Select the language and edition that you want to use to create the bootable USB. You can check the *Use the recommended options for this PC* box to use the same language, edition you are using now.

The screenshot shows the 'Windows 11 Setup' window. The title bar at the top says 'Windows 11 Setup' with standard window controls. The main heading is 'Select language and edition' in blue. Below it, a subtitle reads 'Please select from one of the available options to continue.' There are two dropdown menus: 'Language' set to 'English (United States)' and 'Edition' set to 'Windows 11'. A checkbox labeled 'Use the recommended options for this PC' is checked. At the bottom left are links for 'Microsoft', 'Support', and 'Legal'. At the bottom right are 'Back' and 'Next' buttons, with 'Next' being the active button.

Back Next

7. Next, choose *USB flash drive* and click *Next*.

8. Select the removable drive you want to use and click *Next*. If you have more than one device connected to your computer and you're unsure which one to use, disconnect the other drives. If you don't see the drive you want to use, click *Refresh drive list*.

9. The Media Creation Tool will then start to download the latest Windows 11 installation files on your computer. This process can take around 30 minutes.
10. Finally, click *Finish*.

Part 2

Installing Windows OS on device

1. Insert the bootable USB drive into a USB port on your Surface Go
2. Press and hold the volume-down button while you press and release the power button.
3. When the Microsoft or Surface logo appears, release the volume-down button.
4. In the boot menu, select the USB drive as the boot device.
5. The Windows installation process will begin. Follow the on-screen instructions to reinstall Windows.
6. When prompted to select a drive to install Windows, choose the drive where you want to reinstall Windows (usually the primary drive).
7. Follow the remaining installation prompts to complete the process.

7. Seterusnya, pilih pemacu USB dan klik “Next”.

8. Pilih pemacu yang boleh ditanggalkan yang ingin anda gunakan dan klik “Next”. Sekiranya anda mempunyai lebih daripada satu peranti yang disambungkan ke komputer anda dan anda tidak pasti yang mana yang akan digunakan, putus pemacu yang lain. Sekiranya anda tidak melihat pemacu yang ingin anda gunakan, klik “Refresh drive list”.

9. Media Creation Tool kemudian akan mula memuat turun fail pemasangan Windows 11 terkini di komputer anda. Proses ini boleh memakan masa sekitar 30 minit.
10. Akhirnya, klik “Finish”.

Bahagian 2

Pemasangan Windows OS.

1. Masukkan pemacu USB ke port USB di Surface Go anda
2. Tekan dan tahan butang volume-down semasa anda menekan dan melepaskan butang power.
3. Apabila logo Microsoft atau Surface muncul, lepaskan butang volume-down.
4. Di menu but, pilih pemacu USB sebagai peranti but.
5. Proses pemasangan Windows akan bermula. Ikuti arahan di skrin untuk memasang semula Windows.
6. Apabila diminta memilih pemacu untuk memasang Windows, pilih pemacu di mana anda ingin memasang semula Windows (biasanya pemacu utama).
7. Ikuti arahan pemasangan yang tinggal untuk menyelesaikan proses.
