

Still Struggling with what to write about for the Geography section?

[Geography Section Video](#)

Try these key terms in Google

_____ (your state) and geographical regions

_____ (your state) and geographical features

_____ (your states) famous natural landforms

Does your state have:

Rivers, Lakes

Mountains & Mountain Ranges

Plateaus

Volcanoes

Major Earthquake Fault Lines

National Parks

Major Waterfalls

Deserts

Coastal land

Valleys

Other things you could discuss:

Geography of your state (where is it located & why is that important)

General size of your state

General climate of your state (Is the climate due to its location?)

Elevation of your state

Things unique to your state in regard to geography: Hawaii- how it is an Island, Florida- It is surrounded by water and has marshes/ everglades, etc.

Also, try this site: <https://www.netstate.com/index.html>

Once there, click the link for your state, then look at the column on the left and click geography!

Remember you need 3 sections with 3 things in each section. But you can split it up any way you want!
