

Hi all,

This has been another eventful month for Svitlana and David Tkach.

Svitlana started working at a day care center several weeks ago where she spends her day singing, dancing, playing and supervising toddlers and youngsters two to four years old. She loves it. The center is a short 12 minute walk from her apartment. The children, like Svitlana, are bilingual – they speak English and Russian. Her work provides Svitlana with greater opportunities for socialization, self-expression and actualization. We're delighted for her.

Svitlana has taken driving lessons to freshen her driving skills and has her NJ driver's license. With her car, she now has much greater freedom and independence.

David is currently enjoying sleep away camp. What's not to like? Bunking with new friends, playing, swimming, being outdoors, and doing fun things is what camp is supposed to be, and has been. Thanks to Amy Marcus for arranging his camp scholarship and arranging this wonderful experience.

For the upcoming school year, David will be able to commute to and from Kushner Academy on a school bus. Svitlana will just need to arrange transportation to the bus stop.

My best wishes to you and your family for an enjoyable summer.

Warm regards,

Eric Barr
