

Turtle Method Outreach

Subject:

Hi, Turtle Method I have come across your business through an Instagram advert and I love how it makes reaching goals and targets easily accessible and does not seem like a mountain to climb while also being very informative due to your fantastic and easy-to-access app.

Truth is, upon discovery, I have noticed you do many different business strategies, like the free trial and a phone app making it easier for customers this matches with top companies such as Peloton, LA Fitness, and many others

However, I believe a few key tactics will increase customers and sales exponentially. One of these is providing existing and future customers with a newsletter. This is just one of the many key important things I can do to enhance the business and increase sales

If you would like to schedule a Zoom call with me you can reach me via this email address.

Kind regards
Harry Carter.
