

FREEDOM AT LAST

Is this ever true? Well let's see. To be free, how much do you need to earn? That will vary per individual.

I would say at least £1500.00 and for some that would still be too small. Being realistic, how many employers, are paying that kind of money these days?

I am not going to tell you I have a solution because you might not believe me.

If you have come here with preset ideas you may miss the point altogether.

Some of you are looking for signs of success first. You will judge this by what you know and what you have been told. There I have to say I have failed or succeeded depending on which person turns up here.

First of all can I ask you to empty your mind and be receptive to what I am going to reveal to you.

Betting has a bad image and it also has a lot of horror stories.

I am going to mention only the good that I see. I am not a book maker brand. There is no book maker with my name. I am not a tipster even though I can give you a tip or two. If I am your new partner, I never met the old one so treat me with a fresh mind.

I am quite a resilient and determined person. I do not go with the crowd. In life I am against them a lot of the time that is why

Even those close to me think I'm a nutter.

what do you learn from that. Successful people do not think like the masses.

Now when people sense you are more clued up than them they try to exclude you even while they know it is a pointless exercise.

They are aware of your potential and they will come running but they want it to look like it is them and not you so they will make every attempt to undermine you.

One other difficulty is a face. I do not parade my face in public, it is unsafe for me to do so.

I will talk with anyone who ventures to open their mouth and speak to me. I do not have to know you intimately to hold a

conversation with you.

The researcher's mind learns to hold onto nothing as eventually it will be disproven or go against the grain.

With mathematics there is never an end. There is always some truth after you have found the truth.

That is a contradiction that will put money in your pocket.

Ok with that said I hope you understand what sort of mind you need to have if you want to succeed.

I have been a horseman for over 20 years. I know quite a bit about horse racing and yet I still do not know it all.

I do not need to, I know enough to give me the advantage I want and that should be good enough for you too.

One thing should be clear, I am solo, if I do not get cash I cannot make cash so this is not a cashless offer.

If you want to succeed be prepared to dip into your pocket. no one pays me to give free tips, I eat bread just like everyone else.

You see a lot of services offering free but they will cost you money. My account is full of them.

Everyday they got a trusted friend that has laid the golden egg but not long after you are left with a bucket with a hole in the bottom.

I am not throwing words I have experienced it for myself without having to call any names.

There is a guy that uses these words. "It will definitely win" If he has a lot of confidence in it he will say " go large"

More often than not you lose your money. Yes he does get some good results but it is not consistent enough to get you out of a hole.

Look, those guys help me to make a lot of money.

Sometimes I will analyse the race they are tipping in.

I see their selection is a loser which leads me to the true winner which is good for me.

They will continue to tip and yes they do come round the corner. In other words, they make good.

Now I have two options:

A traffic one, I'm giving this to you for free in return for a favor.

<https://nothingthrudnethorsesystem.blogspot.com/2021/05/freedom-at-last.html>

I would like you to post this on Facebook, not the raw link you have to post it in a blog and then you will be able to post it on Facebook.

You also need to create a Facebook page. I do not have time to go through that here. You can find a video explaining the process here:

<https://empire=course.com/wishlist-member/?reg=1600859772>

As I said I cannot operate on Facebook with this business as I want it to be private.

Now go to the search bar on the top left corner and enter, horse enthusiast, betting on horses, profit from betting, use your imagination.

You are looking for groups. On the left hand side a drop menu will show the categories of groups available, choose public.

On the right hand side names will appear with a head click to join.

Now you need to do this every day and try to join groups that have 20000 members and more. if you encounter any that require you to answer a question to join you can ignore those.

Once you have done that make a post and post it on Facebook every 3 days or so. Leave some space in between.

Now what is that worth to you?

Now you will not get this from any other person because I have never seen anyone make an offer like this.

Let me talk about the standard service and I will come to that. A lot of times I will just charge a £1.00

or £3.00 to join my service. The internet is not kind to me. I spend a lot of time earning credits and I also observe how surfing is random so my ad is not seen as often as I would like it to be seen.

That means in reality I would have to advertise for at least 6 months before I see any real results.

This is an anomaly. If you give people that chance to choose their own level of entry, they become confused.

They simply pass on by. it is not the done thing so they do nothing.

Please do not behave like them, this is a grand opportunity, someone allowing you to pay what you want for your service.

Of course you have to be careful that you do not insult them with too low an effort.

However, your circumstance may not be good and therefore you may not be able to afford what is on offer.

Well , a lot of the services out there hold the handle as the internet is about traffic and programming.

If you want the traffic you have to pay, then they milk you some more with their softwares.

You will also find out they take the money but they do not give you anything in return.

If they do it does not last for long.

Ok the minimum you can pay is £3.00 I was going to put it at £5.00 but will leave it at £3.00.

If you volunteer to advertise my link on Facebook I will give you 20 -1 on what you pay to enter.(BRIBE)

Now Paypal has cottoned onto this idea, they do a button that has this type of choose what you want to pay capability.

What would you get as a standard member? I could say 2-1 on your entry fee. However if I treat it as a pool then you stand to make more money that way.

Now there will be two pools. one for those who pay up to £50.00 to enter and one one for those who pay above £50.00.

Those who pay up to £50.00 do not qualify for the advertising bonus. However if you introduce a friend then you can qualify for the advertising bonus. Notify me from the contact given below.

I will pay you on a monthly basis to begin with. If we get the growth we need then we will resort to a weekly payment.

You can make your payments here.

<http://paypal.me/asimplesolutionGB>

Use Paypal as a last resort they have a habit of holding onto commissions. To avoid those sort of delays I would much more prefer you pay it into this bank

Account:

Royal Bank of Scotland

16-00-82

10922971

Alternative to that use Metro:

For doing that You will get £10.00 along the way. You have to be anxious when money is offered but this is genuine you do not have to be anxious. I am confirming my honesty in this matter as I have been around and I have seen some sorts that have this tell tale sign, this is different. I worked in industry and I could not tell my children when there was mishap, I did not want them going down the wrong pathway. Half a loaf is better than none one might say.

Now here is another way you can make bigger money.

The advertising criteria is from £51-£500.00 .

If you want to make a four figure sum then you need to pay £501.00 or more. It means you get priority treatment. It won't come as one lump sum but we will aim to do it with 4-6 payments.

Now you have a structured way to make money.

I will say to you this is good and certain. It is more or less written in stone.

I sometimes miss 20-1 shots and it is painful when it happens but I do also bag 50-1 shots to and you can imagine what that does for my adrenaline.

Do not worry about the sad stories others are talking about to which you are also a testament.

If you can make a profit more than once a week you are in the money.

I do that all the time. You may not have seen me. you may have but you did not know it was me.

I use other methods along with my betting and I am not broke . I have gradually been digging myself out of a hole.

If you have been marketing and experiencing loss come here man. Reverse that trend. I need some clients, truly I am not ashamed to say it. I need you to experience what a good win is like. We can get a good hit.

Look I have to live, I get paid fortnightly, I do all this activity on my ... retirement earnings.

join me, strengthen my hand and I will return the favour. I will go outside the gate, This is my empire

I can pay my citizens what I wish. If I see you need help I will stretch out my hand but boy get me started and then we build from there.

In the same envelope put another envelope with you bank details and email contact.

Write on the front of the envelope joe Esquire

If you can follow a hint and you do more than that even if it hurts I will know how to respond.

I came on the internet because I discovered a way to make money that could help a poor man like me get out of the rut.

I had the vision and I found the way. I found a system that worked.it is not always straight forward.

Today I did a race it had 9 runner. By the time the race started it was down to 7. the carpet was already pulled from under my feet. I came away with something even though a little short.

The program is not for one day, it is for the long term. If you win often you will make money. it is not just the winning it is the partnership. No one of us can make it on our own . We need others. you need me, what I know can be very valuable to you. Who I know can also be very valuable to you. The services I link to can benefit you in many untold ways.

Have you ever heard of a three way each way bet. I invented that.

No one in the industry knows about this. Do you realise what you are coming into?

20 years of research, I have had to find out many things myself. Some of those punters/tipsters have more money than me but they do not know what I know for at best they have a 30% strike rate.

Yes it is good but you have to fund the gap.

Here I fill that gap and put the dividends your way. That is why you should waste no time joining me, I am here to make you money and I have every intention of helping you get out of the rat race.

Now is a good time friend, I do not care about the length of this report, I want you to understand

what you have in your hands. I hear of the 1000's of job losses and I see crowds coming through the betting shop. Isn't it odd, they beat the crap out of the industry but when there is a down turn guess who they come to?

If you are informed you are in a good place. Do you know in the last two weeks I have not taken a tip from any of the tipsters

that invade my inbox. I have no regrets. I looked today for a five runner race and couldn't find one.

4 is no good. You have to know who is going to win in a four runner race. The only leverage you have is the forecast.

5 is perfect, if you get first and 2nd you are in. You can play win and each way that is where the value is.

I am telling you this because this is where the certainty is. There is much more but I will reserve that for now.

Information that you can go to sleep on.

If you want to be able to place your ad for free on over 20 classified sites apply at the address above make sure you leave an email contact.
