Combined Course Sections in Laulima

[delete this statement if you do NOT combine multiple sections of courses in Laulima]

Please note that this class section of {subject code course number} will be combined with another section(s) of this course into a single course site on the Laulima Learning Management System. By participating in this course, you consent to allow students enrolled in the other section(s) of this course to view facets of your work {(enter Laulima tools that are shared in the combined Laulima site) e.g., discussion board postings}. If you have questions or concerns about the combining of sections of this course in Laulima, please contact me at {instructor's email account}.

Inclusion and Equity

In accordance with the [mission, vision, and value proposition of UH West O'ahu](#), in this course, we embrace the diversity of our community and strive for inclusion and equity. It is expected that we will respect and embrace our differences while engaging in discussions and in-class activities. The expectation in this class is to voice opinions that positively add to the discussion, especially with regard to the important but often difficult discussions of race, gender, sexual orientation, religious beliefs, class, ability, age, and other historical markers of exclusion and oppression.

Please make sure to be respectful of your fellow students and their opinions, even (and especially) when you disagree with them. As we will deal with controversial issues in this course, the environment we create as a group should reflect an attitude of open-minded curiosity and interest in one another's points of view.

Inflammatory racist, anti-ethnic, homophobic, transphobic, sexist, or discriminatory language or behavior will not be tolerated. Disruptive behavior includes, but is not limited to violence, belligerent remarks, insults, slurs, bigotry, and disparaging commentary, microaggressions, either spoken or written (offensive slang is included in this category). These are against the [UHWO code of student conduct](#) and the [Title IX policy on non-discrimination](#). Given the rise of hate crimes in the U.S., it is absolutely essential that you take these policies seriously, both on and off-campus.

If someone says something upsetting or offensive, it's good to ask for clarification and explain what effect the comment had on you. If it's you who has said something upsetting or offensive, it's good practice to interrupt yourself, apologize, and quietly wait for the response. The instructor will set the direction for the class, but you are also co-facilitators of this new intellectual community we are forming together. This will be particularly important during small group discussions.

Communication

Participating in our Learning Community

Provide information here about how you want students to communicate with one another. Is there a general forum for questions that you'd like students to utilize in lieu of e-mailing you? Will there be weekly discussions? There are a number of tools and methods for student-student communication – let students know which you will be utilizing in this course.

Contacting the Instructor

Provide information here about how you want students to contact you. Should electronic communications be sent via Laulima e-mail, messages or university e-mail? Establish clear expectations for response time (e.g., e-mails will be answered within 24 hrs, or within 48 hrs, or 12 hrs Mon-Fri, but not on weekends – whatever your policy/schedule, be specific and clear).

Alternative Contact

Provide alternative contact information here (e.g., program coordinator) should students be unable to reach you.

Late Work

Proctored Exams

If your course includes proctored exams, indicate relevant options here (particularly for DE courses).

You will receive a letter grade based on the following scale:

Note to instructor: The grade scale is programmed into Banner. Most UHWO courses are programmed as letter grade +/- . If your course is programmed for Letter Grade and you wish to change to Letter Grade +/- or you wish to add other options such as CR/NC or Audit, please consult with the Curriculum Committee representative for your divisions for assistance with submitting a course modification through Quali Curriculum Management System.

If all assessments are due at the same time each week (recommended), you may wish to state this up front and omit this info below, aside from any exceptions to this rule. This section is not intended to provide all details for each week - only an overview of timeline and graded tasks. For accessibility, this information has not been formatted in a table. Use simple tables sparingly and only when necessary to organize information – refrain from using table for visual layout. Academic Honesty

All students are expected to demonstrate integrity and honesty in completion of class assignments. Students must give credit to appropriate sources utilized in their work. Copying the work of professional writers or other students and then turning it in as one's own constitutes plagiarism and are not allowed. Plagiarism and cheating are serious offenses and, at the discretion of the instructor, may be punished by failure on the exam, paper, or project; failure in the course; and/or expulsion from the university. Integrity is expected of every student in all academic work. The guiding principle of academic integrity is that a student's submitted work must be the student's own. For further information on what is expected of UH West O'ahu students, please refer to the student Academic Responsibilities and [Student Code of Conduct](#).

Turnitin Policy

NOTE: This paragraph is required only for those syllabi in which Turnitin.com is being used.

Use of Turnitin: UH West O'ahu has a license agreement with iParadigms, LLC for the use of their plagiarism prevention and detection service popularly known as Turnitin. Faculty may use Turnitin when reading and grading your assignments. By taking a course where Turnitin is used, you agree that your assigned work may be submitted to and screened by Turnitin. Turnitin rates work on originality based on exhaustive searches of billions of pages from both current and archived instances of the internet, millions of student papers previously submitted to Turnitin, and commercial databases of journal articles and periodicals. Turnitin does not make a determination if plagiarism has taken place. It makes an assessment of the submissions originality and reports that to the course instructor. These Originality Reports are tools to help your teacher locate potential sources of plagiarism in submitted papers. All papers submitted to Turnitin become part of Turnitin's reference database solely for the purpose of detecting plagiarism. Use of Turnitin is subject to the Usage Policy as posted on the Turnitin website www.Turnitin.com.
