

Click to listen to the instructions!!!

Dear students,

Imagine you've been invited to deliver a groundbreaking seminar at the prestigious "Forking the Future" Food Summit. Your audience? A room filled with passionate Eco-Eaters eager to learn how their food choices can impact the planet. Our role as teachers? To equip and support you on how to prepare a visually engaging presentation bursting with facts, figures, and interactive elements!!! You will be divided in 4 transnational teams. A scientific committee aparted by a literature teacher, an English teacher, a nutritionist and an agronomist will make a crisis and will provide constructive feedback to each team. The presentation that meets the most points in the rubric given in the evaluation submenu, will be sent as an example of product with this WebQuest to an educational conference as a paper.

For the "Forking the Future Challenge" you will be divided into 4 transnational teams. Choose in the following table your team and your role.

Teams	Coordinator/Team Leader	Content Developers/Writers	Visual Designers	Data Analysts	Technical Specialists	Communications Liaison	Fact-Checkers	Timekeeper	Public Relations Specialist	Editor	Speaker	URL OF YOUR PRESENTATION

Roles/ Responsibilities

1. Coordinator/Team Leader:

- **Role:** Ensures that the team stays on track, manages deadlines, and coordinates the efforts of all team members.
- **Responsibilities:** Organize meetings, communicate with all team members, and ensure everyone understands their tasks.

2. Content Developers/Writers:

- **Role:** Focus on writing the content for the presentation, ensuring it is clear, coherent, and well-structured.
- **Responsibilities:** Draft the script, create talking points, and edit the final content for clarity and impact.

3. Visual Designers:

- **Role:** Create the visual elements of the presentation, including slides, graphics, and any other visual aids.
- **Responsibilities:** Design visually appealing slides, infographics, and other media to support the presentation content.

4. Data Analysts:

- **Role:** Analyze and interpret data related to the topic, providing evidence and statistics to support the presentation.
- **Responsibilities:** Collect data, create charts and graphs, and ensure all data presented is accurate and relevant.

5. Technical Specialists:

- **Role:** Manage the technical aspects of the presentation, ensuring all equipment and software function smoothly.
- **Responsibilities:** Set up and troubleshoot presentation technology, ensure all multimedia elements play correctly.

6. Communications Liaison:

- **Role:** Acts as the point of contact between the team and the scientific committee or other external parties.
- **Responsibilities:** Communicate with the committee for feedback, handle any questions or clarifications needed.

7. Fact-Checkers:

- **Role:** Verify the accuracy of all information and data used in the presentation.
- **Responsibilities:** Check sources, validate data, and ensure all statements are factual and reliable.

8. Timekeeper:

- **Role:** Keeps track of time during the preparation and presentation phases.

- **Responsibilities:** Monitor practice sessions to ensure the presentation stays within time limits, remind team members of upcoming deadlines.

9. **Public Relations Specialist:**

- **Role:** Manages the promotion of the presentation on the padlet and engages with the audience before and after the presentation.
- **Responsibilities:** Creates promotional posts, engage with audience comments, and gather audience feedback.

10. **Editor:**

- **Role:** Reviews and polishes the final presentation to ensure it is free of errors and flows smoothly.
- **Responsibilities:** Proofread the script, check for consistency in the presentation, and make final adjustments.

11. **Speaker:**

- **Role:** The speaker is responsible for delivering the team's presentation to an audience. This role requires clear communication, confident public speaking, and the ability to engage and inform the audience effectively.
- **Responsibilities:** Content mastery and public speaking but during the preparation phase he has to participate actively in rehearsals to refine timing, flow, and coordination with visual aids and other team members, coordinate with the visual designer and technical specialist to ensure slides, videos, and other aids are synchronized with the spoken content, and is getting prepared to answer questions from the audience confidently and accurately. If unsure about an answer, know how to defer to team members or promise to follow up later.
