

1. My topic will be on vaccine development for covid 19 and the 1918 influenza pandemic.
2. Vaccine development has substantially grown since the 1918 Spanish Flu, this can be compared with the recent developments of the COVID19 vaccines.

1. I think my thesis covers the assignment prompt because it compares the recent covid19 vaccine with the spanish flu vaccines and their process.

2. I think my thesis requires strength with its clarity, I am not sure how to reword it so that it sounds more concise and to the point. I think the part that might need some revision is where it says "this can be compared".. I was not sure of the correct word to make my statement sound strong and intriguing at the same time.

3. I believe that with some better wording I can get my thesis to a better place that can hold the audience/readers attention. I can also maybe elaborate more on what my project would be about?

3. I think the next step I can take to improve my thesis is to go to tutoring to get some help with my final thesis statement or check in with Professor Garner before going forward with my thesis. I can also do more research on the topic and see if there is any way I can reword it or even
