

Privacy Policy for Chroma Palette 🎨

Last Updated: 2nd October 2024

1. Introduction

Chroma Palette is a browser extension designed to extract and display the dominant color palette from the visible area of the current webpage. We are committed to protecting your privacy and ensuring the security of any data processed by our extension.

2. Data Collection and Usage

2.1 Temporary Screenshot Capture

When you click the "Extract Palette" button, Chroma Palette temporarily captures a screenshot of the visible area of your current webpage. This screenshot is used solely for the purpose of color analysis.

2.2 Local Processing

All color extraction and analysis is performed locally within your browser. The captured screenshot and resulting color data are not stored permanently or transmitted to any external servers.

2.3 No Personal Information Collection

Chroma Palette does not collect, store, or process any personal information, including but not limited to names, email addresses, or browsing history.

3. Data Sharing and Third-Party Access

We do not share, sell, rent, or trade any information with third parties.

4. Data Retention

The temporary screenshot used for color analysis is discarded immediately after the color palette is generated. No data is retained beyond the immediate use for palette extraction.

5. User Controls

Color palette extraction is initiated only when you explicitly click the "Extract Palette" button. You have full control over when and where the extension performs its function.

6. Changes to This Privacy Policy

We may update this privacy policy from time to time. We will notify you of any changes by posting the new privacy policy on this page and updating the "Last Updated" date.

7. Contact Us

If you have any questions about this privacy policy, please contact us at:

developer.mayank.singh@gmail.com

By using Chroma Palette, you agree to the collection and use of information in accordance with this policy.
