Q:What is the Mastersheet?

A: Welcome! This is a document with reference points we've identified in all currently available Xavier story content that points to when an event occurred. Though this is meant to be a sheet referenced when viewing the Xavier content timeline, feel free to use this for your own personal research for theories.

Please be aware: there will be content spoilers and some info may later be proven incorrect as the game progresses. Secret Times are not included as of now other than *Starry Sound*. This is our best extrapolation of Xavier content as of Chapter 8!

***If you wish to use any of this information in the form of content, please send a message on discord to lillyluck for permissions.**

Table of Contents:

1. Memories, Bonds, and Memoria
2. Anecdotes
3. Myth

Part 1: Memories, Bonds, and Memoria by Lilly and Kouyama Lily

This section will contain spoiled summaries and notable points of each Memory, Bond, and Memoria that may give indication as to when the memory took place. Due to the vague nature of the timeframe of some memories, these are in no way intended as hard fact placements but as our best guesses based upon the events within. This will also serve as a way to ‘show the work’ of how the order of these memories were selected.

Key:  = Notable points towards a closer connection
 = Notable points towards a lack of a closer connection
X = Xavier
MC = Main Character

Secret Time: Starry Sound

: • “If I make a mistake, you can’t mock me.” • “Guide me, O Radiance” • “I miss you”

Conclusion: This is the 78th day of X’s journey away from his Queen MC, he leaves a message for her every day thus far. He doesn’t know when he’ll be back or if the mission to save her and the planet will be possible. This is the only log we have of his journey back in time to Linkon City through the Deepspace Tunnel.

Tender Moment: Garden of Secrets

: • They know of each other • MC not surprised by X’s use of his Light Evol on a flower nor in battle • X remembered to keep the Protocore (Ch.1) • MC follows his orders • MC groups X and herself together as “Kind” • X comes when she’s in danger

: • X’s voice is indicated as “???” at first • MC doesn’t recognize his voice or frame yet • X is surprised MC grouped herself together with him • MC hesitates to give X her hand to get bandaged

Conclusion: This most likely takes place after they’ve met each other in the forest of Chapter 3. X recognizes MC and sounds interested to see her which is quite different from how they met in Chapter 3. They seem to have some battle experience together past their initial meeting in Chapter 1. MC also directly mentions, “it was the same at the base, he didn’t say much.” They are coworkers but not partners yet.

Bond: Plushie Go Go!

: • X feels comfortable enough to show his competitive side • X is impressed by MC’s claw machine abilities • X proposes the idea of being partners • X reveals some truths about himself to MC

: • X keeps his responses to MC brief • X’s arms are crossed and is stand-offish at first • At first sight, tries to get MC away and not involved

Conclusion: They agree to become partners!

Tender Moment: Perfect Sunset

☀️: • X: "Aren't we neighbors" • MC stealing peeks at X • X stealing peeks of MC • X: "Sometimes it's harder to let go." • X invites her to knock on his door any time • They're sharing a hobby together

🌙: • MC can't quite read his emotions yet • She meets X's friend but is perplexed by his age • MC: "But how do I give it to you?" - likely hasn't knocked on his door yet

Conclusion: This is very early on in their relationship. There are subtle signs of attraction or at least curiosity between each other but they don't know one another well enough yet. Definitely right after the chapter she discovers he's her neighbor as the conversation ends with him inviting her over.

"That was a beautiful sunset I just watched. The sunrise must be equally as breathtaking to witness." - *After Sunset*

Tender Moment: Moment's Respite

☀️: • MC knows to run up and check on X after hearing an explosion • MC let's herself in to help knowing she's allowed over • MC is comfortable enough to order him around • X is impressed by her cooking abilities and expresses his excitement openly • X invites her over to his apartment next week

🌙: • X is embarrassed and immediately tries to tell her to go home and that he's fine • X: "Can I trust you?" - X has no knowledge of MC's cooking abilities • MC: "You didn't think I'd actually feed you, did you?" • No text indicating MC's attraction • MC doesn't know where things are, needs X to get them for her

Conclusion: It seems this is the first moment she enters his apartment, not in the smooth way of borrowing books like X wanted but as a cooking related accident. MC and X are starting a friendship.

Tender Moment: Heartfelt Guide

☀️: • X and MC are more familiar with either other now • MC's on the job, X feels comfortable enough to stay and help her • X shows his goofy side with a "Cats vs Hoomans" conference • MC listens to X's directions again, comfortable working together • Uses the cat to say "See you!", first time giving a voice to something without one

🌙: • X tells her he was just on a coffee run • No indication of romantic interaction, purely friendly banter and fun

Conclusion: They are at the very least coworkers in this memory though the familiarity they share seems like they've had more time to get to know each other, especially for X to show this really cute goofy side of himself. This also might be the first time he mentions that he'll always find her.

Tender Moment: A Captured Moment

☀️: • MC is battling a Wanderer and X comes to help her • MC's surprised but this doesn't seem like the first time X has shown up to help • X sees her wounded and is showing concern • MC gives X cookies and X eats them right away, by this time he knows she can cook • MC: "I think you're an interesting person" "Can't help but feel happy"

🌙: • X 'seemed distant' when he noticed her clothes were torn • X is holding himself at a distance • X turns around while she fixes her shirt • MC: (Does this guy not like making friends?) MC is just friends with X • MC: "I haven't known him for that long."

Conclusion: In this card MC mentions to Tara that X has saved her (Garden of Secrets), that X's funny and easygoing (Moment's Respite) and goofy (Heartfelt Guide). Neighbors but X is still distant like he's holding back.

Tender Moment: Heartfelt Code

☀️: • MC is has to close her eyes for the horror movie, X narrates to her what is happening • MC falls asleep to X's voice • X offers to go "home" but MC wants to watch the sunrise • MC compliments X's fashion sense • X got much better at the claw machines in his own time

🌙: • X comes up with an excuse to watch over MC while she's alone at midnight watching movie • MC says she hasn't gotten any signals of BF

Conclusion: Most important part of this memory is that MC **discovers her feelings** for X. This card ends with him referencing his fishing equipment, which we learned about in ACM but he's offering to fish again to see if her feelings have changed towards him.

"I've seen a lot of sunrises alone. So I might like someone who invites me to watch the sunrise with them." - *Xavier*

Tender Moment: An Appointment

☀️: • MC is there to study, X stays to read novel • X references events that happened to him when he first met a reincarnation of her in Anecdote 3 • MC lingers on his face: "(I feel different about Xavier each time I see him)"

• MC sees his name in a book, X makes a pinky promise to keep it a secret

🌙: • MC is startled by X getting close • Conversation is casual but still at a distance

Conclusion: This has to be one of the most confusing memories in the game. She seemingly figures out his age and presumes he's a "Chrono Class Evolver", it does seem after this she doesn't question it.

Tender Moment: Shimmering Sunlight

☀️: • MC has a pair of slippers at X's apartment • MC playfully pokes X's face • X fixes her coffee • MC compliments his plants • X: "There's only one thing I want to understand"

🌙: • X: "Why are you poking my face?" • X doesn't remember giving the book to her or asking for it back • X accuses her of letting it gather dust

Conclusion: "We haven't agreed to go out today nor have I done anything you deem *condemnable* lately" So by this time she's been over at least once or twice since she has her slippers there. They're not dating yet. The way X introduces the birds implies MC hasn't slept over yet. This is a very cute moment though! MC is actively pursuing spending time with him.

Bond: A Night Of Warmth

☀️: • MC is giddy to see X when he's "fluffy" MC's crushing • MC is worried that X just takes naps to heal • MC says her brain stopped working when she's flustered • MC brings X to her apartment • MC wants to spend more time with X • MC falls asleep next to him • MC admits she sees him differently now (Anecdote 3, Chapter 3, Page 6/13)

🌙: • When MC gets close X backs up • X: "Why was your face red before?" MC: "It just was!" • X insists on leaving her apartment and tries to talk her out of spending time • X tells her it would be easier for a star to fall down to her but only when she's asleep

Conclusion: He stays awake with her until she falls asleep, brings her to her bed, and stays beside her while she sleeps in her bed. Big progress!

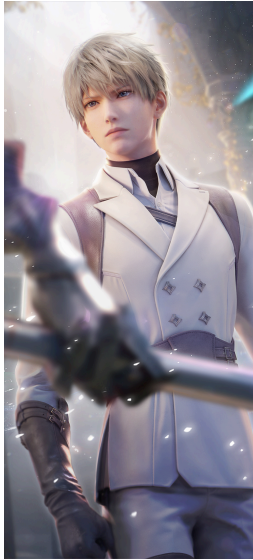

Tender Moment: Dawn to Dusk

☀️: • X is teasing her ability to sneak, but immediately goes soft and offers to play along when MC's sad to get caught • X takes on arranging the day like a challenge • MC falls on X on the train and blushes • X: "You seem to bring me happiness that sleep can't give." • MC grabs his hand • X looked up 'first-date ideas'

🌙: • MC proposes the trip as a 'Field Trip' • X asks her why she's blushing

Conclusion: They are definitely both interested in each other but it seems neither of them are ready to fully take the dive yet into a romantic relationship. However they're both set on beginning the journey towards it.

Tender Moment: Galactic Harmony

☀️: • X is now over at MC's apartment more often and wants to use her kitchen • X comes to her exact location as soon as she's in trouble • MC can tell what X is feeling but doesn't ask, let's X process the palace • X is close enough in the relationship to grab her and get close • In the end when X pins MC to the wall of light he made, her heart beats as he gets closer

🌙: • When MC falls into a fissure she calls out to *anyone*, not crying out to X yet • X isn't telling MC the whole truth about the palace but he's also processing finding this place again

Conclusion: MC's heart is PUMPING at the end when he gets close! We can say for sure she's attracted to X. This is such a good memory to show how competitive he is. He takes any challenge she gives seriously.

Memoria: Precious Bonfire

☀️: • X brought MC food for the work trip • X put white noise on the headphones so MC could sleep on the bus • X starts to take care of tasks for MC • X makes her a sandwich and MC loves it! • X and MC still have a really good teasing relationship • X offers that MC tell him when she's overwhelmed, first time he asks her to let him take care of her

🌙: • MC and X accidentally touch hands over the mafia card and they both seemed startled • Work colleagues at least

Conclusion: I think it's safe to say they are both interested in each other, X has put some work in behind the scenes to improve himself like at the claw machine and now cooking with a good sandwich! X is there for MC in every way he can be. MC seems to have had fun despite the high stress role.

Tender Moment: A Day of Snow

☀️: • X and MC are out to get their first hotpot together • MC laughs at X and X gets playfully bitter • X seems to be very comfortable and happy with MC, definitely a lot of time spent together • MC mentions tradition that a hug during the first snow blesses both people, X hug her so she won't miss out on the blessing • MC ties a scarf around X

🌙: • X only hugs MC for a bit X: "This should be enough, I think?" and then lets go • X comments on the warm scarf and MC almost admits why she's warm • X: "Your hand is cold but why is your face red?"

Conclusion: This is still early on for them, but X is showing intentionality in his time he's spending with MC. X thinks MC blushing is a fever. Early.

Tender Moment: Warm Wishes

☀️: • X refers to their apartment complex as home • X can tell MC's not having a good Lantern celebration • X says he can tell MC's aura isn't as dazzling as it usually is, X: "It was a compliment." • X tries new drink with MC • MC says she already feels better being with him, X says it's an honor • X comforts MC and says she doesn't need to fake a smile • X takes MC to a busy market • X allows himself to be excited around her, he's very comfortable around MC

🌙: • MC: "That sounded like a compliment", implying she wasn't expecting a compliment • X: "If you don't want to go home and be alone I'll walk around with you" • MC seems to forget some things about X but she's going through a lot

Conclusion: X implies she would have been alone if she went home meaning they're not intimate or dating full on yet.

Tender Moment: Shining Light

☀️: • MC thought X was sent for a post battle check up, MC didn't expect him to find out • X makes sure MC knows to call out to him if she's in trouble • X: "I will definitely know if you are looking for me." • Tells her to think up an excuse with him • MC moves X's head to her lap so he's more comfortable • X: "Don't worry about bothering me" "But you're special and very important." he admits half-asleep.

🌙: • MC is back to hunting but gets hurt and doesn't tell X • X is upset that she's hurt and didn't let him know •

Conclusion: MC has been through a lot but it seems like she still hasn't learned to ask for help from X. Very important memory because X vows to always be there when she calls and tells her that she's special to him.

Memoria: Fragment of Time

☀️: • MC and X have gone to see the peach blossoms together at her previous school • MC and X go around the school to see if the urban legends are true • X makes sure they walk in exactly 100 steps to have a better relationship • X actually memorized MC's poem

🌙: • MC brushes X's neck and he gets flustered, MC doesn't know about his neck yet

Conclusion: Their relationship is really blossoming. X and MC seem fully engrossed in each other, just having a fun time together seeing the blossoms. X does ask if MC's ever seen them with someone before but asks her if he can be by her side next year.

Tender Moment: Spring Letter

☀️: • MC is dreaming of her and X under the blossoms again • MC wakes up to X texting her asking her out to watch the stars • X is openly referencing coming up with an excuse from their time in Shining Light • X openly teleports in front of MC • MC and X are close enough that she cleans off his shirt for him • X: “What I want is to see you. Is that not allowed?”

🌙: • MC still seems giddy/nervous for some reason maybe because she has feelings she hasn’t admitted yet

Conclusion: This card is certainly right after Fragment of Time. I think there’s no denying at this point MC’s feelings for X or his feelings for her. X is now openly admitting his wants to her.

Memoria: Heartstring Symphony

☀️: • MC is watching over the strawberries they planted together at his apartment • MC also texted him that she missed X but later got embarrassed and deleted them • X tells MC about his neck • MC falls asleep next to X • X remembered all of her text messages and admits he missed her too, X: “Unbearably so”

🌙: • MC cannot come to terms with her feelings because she says they’re just neighbors • MC: “We’re just acquaintances who happen to be neighbors” • X: “Why are you so curious about me?” MC doesn’t answer truthfully

Conclusion: MC: “I can’t fall asleep counting stars, I need them by my side.” Counting stars, a reference to A Night Of Warmth. MC and X feeling very attached to one another even after being apart for a short time.

Tender Moment: Close Feelings

☀️: • MC gets flustered by X holding her hand and demands if he knows what it means before realizing it’s to open the door • MC ADMITS HER FEELINGS!

🌙: • MC seeks out Tara’s help because she is so flustered about X • MC got drunk and then was walking home alone • MC didn’t tell X why she’s so drunk

Conclusion: The big one. After all this time of denial and distance they’re finally honest with one another, even if it’s through a doll named Becky. A move Xavier’s done, giving a voice to an inanimate object.

Memoria: Fluffy Trap

☀️: • They're officially a couple! Going to a couple's photoshoot • MC is fantasizing about X in the bunny butler costume • X: "I'm honored to be the partner of someone like you." • X can tell she's hiding something • X plays along with the bunny cosplay wholeheartedly for MC • MC's heart is racing when she falls into him • X pretended to be surprised at MC trying to scare him after Dawn to Dusk • X calls MC a "Sly vixen"

🌙: • MC isn't upfront with X about her fantasies yet • MC got startled by seeing X after the photoshoot

Conclusion: They're definitely now a couple, MC's feelings for him have only grown after admitting them to X. X mentions MC's fallen into some of his traps and even feigns injury possibly referencing their time in Heartstring Symphony.

Tender Moment: Dreams Within Reach

☀️: • X feels tricked into doing errands • When MC grabs X he gives in pretty quickly • MC gives X strawberries, possible Heartstring Symphony reference • MC falls asleep around him again, when she wakes from a nightmare X comforts her • X tucks her hair behind her ears, touches her face, and holds her hand

🌙: • MC using more "traps" to spend time with X • X was going to head to his place after dropping her off

Conclusion: Most certainly are dating by this point. They've reached a level of comfort that allows MC and X to be physically intimate. X is comforting her after a nightmare. The closer they get, the more worried she becomes of him disappearing. X is right there to comfort her.

Memoria: Tender Night (+event series)

☀️: • MC is amazed by X's dancing skills • X grabs MC by the waist • MC is relieved to hear X praise her dancing ability • X says he doesn't remember how to put on a tie asks her to put, possible reference to Myth 5 • When MC gets close X is only looking at her lips • MC sees X's neck and knows it's his weak spot • X takes off MC's shoes since she mentioned her feet hurt • X takes care of MC when she's drunk

🌙: • MC hides her disappointment that it's a masquerade for a mission • MC isn't up front with the reason why she's choosing his outfit

Conclusion: This is a very intimate memory from start to finish, she's aware of his neck and they are touching each other in areas that indicate they've been intimate with each other before.

Tender Moment: Kind Words

☀️: • X and MC are on vacation together to a hot spring • MC wishes: “Please keep me and Xavier safe” • X: “The scent of forest reminds me of you” (Myths, Chapter 3, No Hunt Zones, Precious Bonfire) • X kisses MC’s forehead • X made sure to count every bead and recover the last bead for MC • X kisses MC’s forehead • MC stares at X as he strips to just a towel, MC: “(I’m not thinking straight right now.)” • X uses the bird to ask MC for a reward • MC calls X a “Sly fox”, possibly a reference to Fluffy Trap • X hugs her from behind and nibbles her earlobe

🌙: • When X mentions he’s made a wish on the tree a long time ago, MC assumes it wasn’t meant for her

Conclusion: This memory is almost like a honeymoon. This might be the most comfortable and intimate memory between them referencing several other past experiences. X is open with MC about his past. X wonders what MC wished for. (Anecdote 3, Chapter 2, Page 11/11)

Tender Moment: Shining Traces

☀️: • MC is in danger and X finds her despite it being difficult • MC is calling out to him afraid X will leave her • X summons a light shield to protect MC as the fog comes • X feels MC has a fever and stays with her • X and MC are clinging to each other inside the safe house • MC: “I want to be with you” • X cuddles with MC from behind, MC wants to be held tighter, X: “Understood, my lady” (Fluffy Trap) • X: “Don’t be too far away though.” He’s worried about her safety like in (Shining Light) • MC sees X stare into the nebula instantly gets the panicked instinct that he’ll disappear (possibly echoing feelings from Myth 9) • X: “I won’t leave because you’re here.” • The Wanderer is suppressing their Evols and it looks like X might be consumed in darkness, MC covers him to sacrifice herself • X defends her on one knee, X: “As long as my heart is still beating, I will be by your side until my last breath.” • MC and X’s hearts beat as one as their evols defeat the Wanderers. • X: “One day, we will meet under the stars again.”

Conclusion: This card is most likely the end of the road for the current memories available. This the pinnacle of their relationship with references to earlier intimate experiences, the intimacy they share in this memory, and the complete and utter honesty and devotion they show each other.

This section will contain spoiled summaries and notable points of each Anecdote that may give indication as to when it took place. Thankfully the Anecdotes provide dates so placing their contents on the timeline is much easier than other portions of Xavier's timeline. These will be ordered in this section as the order they likely occur in.

Key:

C.E. = Current Era - denoting the year on Earth while it existed, referenced as "the Age of Earth" in-game
P.E. = Philos Era - denoting the year on Philos "since its birth" as well as "the demise of Earth" (cit. Anec 3, section 1, page 2/7)

MC = Main Character that we play as in Love and Deepspace during the year 2048 C.E.

CMC = "Classmate Main Character", an incarnation of our reviving MC that existed during 214-217 P.E.

Anecdote 3 (217 P.E.)

The earliest story we have of Xavier, this is his first time falling in love with an incarnation of MC. This Classmate MC is born on a small "plate" of land that the academy resides and hasn't ventured to other parts of Philos. Classmate MC like others, were only brought to the academy after her Evol "awakened". Xavier transfers there unlike everyone else. Other classmates say he doesn't live on campus because his 'family background is complicated' and is surrounded by bodyguards. As long as Philos has energy in the core, the people live forever, except for CMC. CMC helps Xavier escape his bodyguards and invites him to the meteor shower, she makes a wish that he can be "free" and that she could be "healthy", Xavier makes stars in his hands and says the wish is granted. Xavier first learns about CMC's "Protocore Syndrome" when she faints in class. They see the meteor shower. CMC gets worse, Xavier finds the core to cure her but she refuses it.

Notes of Time

- **214 P.E.** Xavier first arrives as a transfer student at the Academy on a rare, sunny day.
- Teachers that remember Earth say they replaced Earth's "extinguished core with a powerful, artificial one. This core holds fragmented land masses together, preventing them from scattering into the starry sea." "Our planet isn't much different from the Earth of years past.
- **217 P.E.** Classmate MC and Xavier haven't interacted much. CMC is curious/"actually a crush" and attempts to 'resonate with his dreams' but gets nervous and fails.
- **117 P.E.** and **17 P.E.** These years had one-in-a-century meteor showers that can be predicted down to the month.
- **A rainy day**, CMC and Xavier are passing notes in class. Xavier offers his umbrella, uses his evol to snuff out the lights so his bodyguards can't see them.
- Xavier notes that he's been trained in swordsmanship **since he was a child**.
- **Late Autumn 217 P.E.** CMC and Xavier watch the meteor shower together and CMC gives Xavier the Star Tassel she made for his sword.
- Exactly **one month** after the meteor shower, CMC sneaks out of the hospital and goes to the place they watched the shower, Xavier rushes to meet her with the core that can

cure her. Xavier: "No matter what happens, I'll be by your side. And no matter how long you rest, I'll wait for you." MC wishes to meet Xavier in her next life.

Anecdote 2 (July 2032- February 2033, February 15th, 2045 C.E.)

Xavier is a Logistics Administrator on a Special Task Force; one of the many identities he's assumed since potentially landing on earth in 1834 C.E., if his character trailer is to be understood correctly. Arthur, his team captain, invites him to hot pot, surprisingly the exact right call for Arthur since Xavier loves hot pot. Xavier takes down a Evol hallucinogenic selling crime boss named Lawrence. Xavier assumes a fake identity he names "Bob" later named "Christian" to take him down. Xavier gives Lawrence a massage but puts pressure in the right places on his spine to subdue Lawrence. Luke, Xavier's fellow teammate discovers Xavier killed them all but Xavier denies it. More men come from the elevator and Luke closes his eyes while Xavier takes them all out in a flash of light. Luke gets commendations. Arthur reveals at the NEw Years Eve party that he found an old picture of a man who looks just like Xavier but implores him to stay, Xavier knows he has to leave the team. Xavier frames his own death in a fire. 11 years later he visits his grave and encounters an elderly Arthur and takes a picture with him, the first time Xavier's ever left a trace.

Notes of Time

- 16 years ago = 2032 C.E. this anecdote starts. Likely July or August 2032 C.E.
- "During a mission, Xavier was injured in an attempt to rescue someone. He spent nearly half a month in the hospital" Xavier applied to this desk job in Anecdote 2 because of that or so he says, we later learn it's to get information.
- 1 month after Xavier's first mission to take down Lawrence, "Polar Bear, notorious for selling illicit Evol drugs, shows up at the doorsteps of the police station" tied up, weeping, confessing.
- 2 months after Polar Bear, "Kash, who had been using his Evol to do telecom scams, is found livestreaming on MeTube dramatically slapping himself" and imploring people to not trust calls from overseas numbers.
- 3 months after Kash (So 6 months have passed since Xavier's first mission!), Luke and Tommy, decline promotions to stay on Xavier's team
- February 9th, 2032 C.E., Tommy and Luke get their medals and recommendation letters from headquarters "Tomorrow is New Years Eve" Luke invites Xavier to the new years party with the promise of "plenty of meat".
- February 10th-11th, 2032 C.E., at the NYE party Arthur tells Xavier he knows Xavier stole file SD19940122. 1994-01-22 Xavier is looking into an incident from that day.
- February 12th, 2033 C.E., Xavier sends a message to fellow Backtracker Noah
- February 13th 2033 C.E., Xavier mails the missing file, Noah responds to the message. Noah wants to use that files information for a new identity so he can be with his loved one on Earth.
- Noah's message reveals the Backtrackers have been waiting for MC to be born for a long time due to "The spaceship couldn't handle the Deepspace Tunnel fluctuations"

- The night Xavier is faking his death in a fire, Isaiah, another Backtracker [he went to the Academy with on Philos](#), finds him. Xavier kills him. Causing a black out and then blanketing the entire city in stars.
- [1 day](#) after killing Isaiah, they declare Xavier dead at 23 in the winter of 2033.
- [1 month](#) after Xavier's declared death, a funeral was held for him. Luke, Tommy, and Arthur were all weeping.
- [February 15th, 2045 C.E.](#) Spring/the day before New Years Eve, Xavier visits his own grave and always finds flowers on it over the years. Xavier places flowers he bought on the neighboring graves.

Anecdote 1 (~2039-2047 C.E.)

This is a lighthearted story from Xavier's life after 2038 C.E. but before he really gets into MC's life. He spends most of his days hunting, sleeping, and shopping. Ulysses is an old friend of Xavier's. Ulysses used to look up to Xavier when he was young and now his son, Frank, has become interested in Deepspace Hunters from the shows he watches. For Frank's summer homework he sets out to interview a Hunter and Ulysses allows Frank to spend time with Xavier to write his report. This story also highlights again that Xavier's a big fan of hot pot like Tender Moment: Day of Snow confirms. After Xavier defeats the Wanderers in front of Frank, he hides from the public to make sure his location and identity aren't discovered.

Notes of Time

- Summer
- Ulysses had his son Frank [7 years](#) before this Anecdote
- Wanderers and Deepspace Hunters exist and there's media about them so this must be at least [a few years after the Chronorift Crisis of 2038 C.E.](#)
- Xavier mentions that he doesn't take exams, possibly finishing them all or he never took them.

Part 3: Myth by Adaah

This section will contain spoiled summaries and notable points of each section of Xavier's Myth Memories. The Myths give no hard dates from start to finish, which is difficult for time placements. This section will serve as a summary as well as isolate as many indications of a timeframe from them as possible.

—

Xavier is born to a royal family on a planet called Philos. The core of the planet is a very special protocore that prolongs human life, therefore the people of Philos are "immortal". The core in Xavier's time became exhausted, started losing its energy which would lead Philos to its "death".

The royal family has found a solution to keep the core alive - sacrificing humans to feed it with energy, they send the humans to the Starfall Forest so they can become food for the planet, which also turned the sacrificed person to a Wanderer as a side effect to this phenomenon. This is an incredibly inhumane solution and it is why it's being kept as a secret from the society.

However, the king has found another, better and permanent solution. He found out about a girl with the ability to be reborn over and over again - MC. Meaning, MC can be sacrificed forever. This has caused a huge argument between Xavier and his family leading to him refusing the crown. The teacher of MC and Xavier once told her that her duty is to be Xavier's knight and to protect him - what this means in reality is to keep him and the planet alive.

Xavier wants to save this MC, so he goes on a Backtrack mission - going back in time to find the original core used to create Philos. He asks MC to be the Queen of Philos and that he will be her Grandis Knight. Which he didn't fulfill because of the said mission.

The original core is most likely the main story MC's heart and in order to get it, Xavier will have to kill her. This MC has no idea about any of this.

Adaah's notes on timeframes:

- * Family – Xavier is avoiding any question related to his family
- * MC doesn't remember giving Xavier the star-shaped charm on his sword (as we know she did in anecdote 3)
- * ends by an invitation to sparring in the following noon + Xav asks MC for a favor that he will explain later on

2

-noon after the events of myth 1-

- * The academy is the OLDEST institution in Philos
- * Xavier doesn't like his father it seems; not a good relationship with family?
- * the messenger seems to be an idiot -> Xavier is taken away, returns not long after(?)
- * tbh Jeremiah might play some role here as he seems to not like Xavier – he knows sth (i think in the next myths he knows about MCs heart but i didn't go through that yet)
- * (jelly Xavier lowkey hot)

3

- * MCs teacher -> MCs duty is to protect Xavier in the future – he was supposed to be the King of Philos (as we know MC was the Queen in prologue)
- * MC knew about Xavier for some time before they met - "I didn't see him for many years."

-still the day after the events of myth 1-

- * again.. (jelly Xavier kinda hot)
- * teacher who came back from a lightseeker expedition mentions a missing royal family member - lost in the stars
- * the role of the Grandis Knight might be important since it's so amplified
- * mentions of the titulus ceremony
- * Xavier mentions his father possibly dying soon

no other mentions of time here

EVENTS AFTER CH 3

- * Gladius Ceremony - a tradition passed down from generation to generation (we don't know how many generations but we can assume there's a few)
- * No mention of WHEN but Xavier went through the Ceremony, returned after 7 days

-Xav return-

- * Xavier here mentioned ULURU - he wants to spend his days there with MC; its a planet that only grows flowers, no wanderers or humans present; 200 years old

-Later THAT DAY-

- * Xavier meets the king later that day
- * MC learns about the tassel - MC blind to his hints

-Xav left to see his father-

- * Xavier refuses crown -> does not return to academy

-no precise time mention, but time passed and king dies-

-200 years of mourning period-

- * MC kept training to be the knight -> became Commander of an elite squad

-YEARS LATER-

- * MC got caught in nebula -> Xavier saves her
- * Xavier has been investigating the Forest for the past few years when he was gone

(-I suppose there's a few days timeskip-)

- * MC learns about Philos' heart - the sacrifices of people to feed it

-not sure about timeskip here-

- * Silvercord - Xavier informs MC he's gonna leave Philos

- * MC was chosen to be the Queen

-CORONATION OF MC- (precise time not mentioned)

-BACK IN PRESENT TIME/PROLOGUE OF THE MYTHS-

- * Xavier has been gone for a long time here

- * MC realizes he is not coming back, sees his ship leaving, he lied - she wondered about their time together
