

Highest Interest Muses . . .

This is a list of characters and verses that currently occupy my brain the most! Of course every character and every verse is always available for interactions—if I grow completely tired of a character, I simply remove them from my muses altogether!—but if you're struggling to choose a character/verse to interact with, these are all of the characters/verses I currently have a lot of interest in! The characters are listed from highest interest to lowest (left to right, not by column), and the verses are listed the same (highest interest to lowest). A lot of these characters are just characters I rarely get to write, so I would like to pick them up again...and some characters will *always* be high-interest for me!
