

Dear Ethan,

My name is Jimmy. My dad, James Vas Dias, is one of your customers and loves to come to you guys when he needs work done on his truck. I am writing on behalf of the Coeur d'Alene Lumbermen Baseball Organization. The Lumbermen are a local baseball program dedicated to developing young athletes, promoting teamwork, and representing our community with pride both on and off the field.

We are currently seeking community partners to support our upcoming season through sponsorships. Sponsorship funds help cover essential expenses such as field rentals, uniforms, equipment, tournament fees, and player development opportunities. With your support, we are able to keep baseball accessible while continuing to provide a positive and competitive experience for our players.

As a sponsor, your business would receive valuable local exposure through options such as team banners, social media recognition, announcements at games, and logo placement on team materials (depending on sponsorship level). More importantly, your support would directly impact youth athletes in our community.

We would be honored to partner with CDA Diesel and I would be happy to discuss sponsorship levels or customize an option that works best for you. I have attached a list of sponsorship levels to read through. Thank you for considering supporting local baseball and the Coeur d'Alene Lumbermen.

Sincerely,

Jimmy Vas Dias
