## Activity Guide - Training Data

## Overview

Complete the following tables with different pieces of text you would find in these locations. Include at most 3 words as examples of what a language model would learn from these sources.

For example: if your data source is "Street signs on the way to school", some words a model would learn could be "stop", "yield", "speed", "limit".

## Curating Data

| This Classroom | |
|---|---|
| Data Source<br>(For example: books, posters, signs) | Words Learned from this Source<br>(Write at most 3 words you might learn from a particular source) |
| **book** | Read, number, library |
| | |
| | |
| | |

| Your Home | |
|---|---|
| **Data Source** <br> (For example: magazines, instruction manuals, photos) | **Words Learned from this Source** <br> (Write at most 3 words you might learn from a particular source) |
| | |
| | |
| | |

| On Your Way to School | |
|---|---|
| **Data Source** <br> (For example: street signs, billboards, shops) | **Words Learned from this Source** <br> (Write at most 3 words you might learn from a particular source) |
| | |
| | |
| | |

| Somewhere you go for fun <br> (for example: the park, a mall, a sports arena, etc) | |
|---|---|
| **Data Source** | **Words Learned from this Source** <br> (Write at most 3 words you might learn from a particular source) |
