What is the critical task you completed today that is moving the needle most?

- Crushing some replies and posting like a G on X. Fully conquered that part of working today.
- Finished coming up with questions for tomorrow's sales call.
- Blitzed through the target market research for my call tomorrow.
- Made 3 changes to the website copy of another client.

What were your achievements today?

- PR of 7 GWS in a day.

Twilight review on the day:

- Super productive day. The only problem was the 7th GWS, I started getting a lot of brain fog and my productivity dropped massively. There was probably 60 min of solid work out of the 90 minutes. Could have taken a longer walk after my 6th to Aikido this.
- Was still better than yesterday because my productivity dropped in my 5th GWS.
- Now, I am going to fkn bed cause I am so dead.

Wins:

- 7 G-work sessions.
- Posted 60 comments on X.

Losses:

- None

Insights learned today and how you will apply them to hit your goal:

- Ronan gave 3 insights into how I can improve my website. Acted on three of them and need to call my client tomorrow to implement the next one.

Tomorrow's tasks:

- Start running ads by publishing the domain to the actual site. (Top priority, only going to do the rest if I complete this)
- Posting at least 8 times on X and 30 replies.
- Crushing 20 outreaches.
- Closing the client on the call tomorrow.

Any other thoughts you have on your current situation and what you need to work on:

- My dental client still hasn't shared the login details of her domain provider, which I need to publish the new website and start running ads. It's been three days now, and I suggested that if she couldn't find it, we could get on a call. However, she said she's too busy until the 18th.
- This conversation was yesterday. Will follow up with her tomorrow - this was yesterday, I did follow-up but she didn't respond. Let's see tomorrow.
- Also, G I am coming for you. Remember this 😡😡👉 - This doesn't change.
