

REQUIEM - OFFICIAL RULES

By being on our platforms (Discord and in-game server), you agree to these rules and understand our staff team has the right to suspend, temporarily or permanently, your access to said platforms.

I - Global Behaviour

This section concerns, in its globality, behavioural rules you must follow when interacting with other members, players and staff.

a. Have human common decency.

Treat others like you should be treated. Heavy insults, harsh trolling and hard toxicity are not tolerated.

Example: IRL threats or doxxing are considered rule-breaking. Starting drama by provoking is also considered toxic and isn't accepted.

b. Be a minimum inclusive.

We do not ask you to condone everyone else's point of view, but as long as it is not based on hateful speeches or hatred, liberty is given to everyone to express themselves.

Example: You cannot tell someone 'People like you don't deserve rights', in whichever context.

c. Advertisement is not allowed.

Example: Sending links to unrelated YouTube channels. However, clan recruitment ads are allowed.

d. IRL deals are not allowed.

You cannot sell in-game items, access, or anything related to the game for money. Trading goods for purchasable content from our store is however allowed.

e. Spamming / flooding, raiding and hacking are banned.

Example: Using a bot to flood messages in Discord or in-game.

f. No real-life event references, extremist groups, or controversial topics.

Speaking about politics or religion is not allowed.

g. Evading a punishment using another account or exploiting a fault is prohibited.

Example: Using another Minecraft account to evade a ban.

h. Speak any language as long as it does not break any other rule.

II - Discord Rules

a. Do not mention the whole staff team for specific help.

Use support channels and tickets in case of need.

- b. Alt accounts are not tolerated.

This is to prevent ban evasion and boosting (e.g., bypassing cooldowns in the community advertisement channel).

III - In-game Rules

- a. Forbidden game modifications will lead to heavy punishments.

Optifine is allowed.

Gamma / fullbright is allowed.

We tolerate Lumy Skin Patch and CoreTweaks.

Any other third party mod isn't allowed.

Minimaps are not allowed.

- b. Using glitches to your advantage is not accepted.

Report glitches to staff instead of abusing them.

- c. Texture packs are tolerated under conditions.

Texture packs are tolerated under conditions. Packs giving certain unfair advantages (e.g., transparent blocks, glowing armor) are illegal. For grass : (grass block + tall grass) : only the vanilla or Decimation pack grass textures are allowed. Packs should not modify any model. Texture packs are NOT allowed to modify any Decimation (AND Requiem) asset (texture or model), including weapons, armors, blocks, vehicles etc.

- d. Spawn killing / Safezone protection abuse / TP-Killing.

Spawn killing and spawn camping are allowed. TP-Killing is allowed.

- e. Alt accounts.

Allowed unless used to break rules (e.g., evading a ban).

- f. Abusing logging.

Combat logging and abusing login protection is illegal.

- g. Using proxies / VPN is not allowed.

Prevents punishment evasion and glitch abuse.

h. Spamming items next to/in safezone is prohibited.

Radios, guns, detonators, spamming such items will result in punishments (that can include confiscating the item(s)).

i. Hosting cheaters / abusers in your clan is your responsibility and not allowed.

Your clan will get up to -15% clan score upon a ban of one of its members for cheating, bug abusing or anything else game breaking. Things like duplication can get your clan disqualified from leaderboards temporarily or permanently.

j. Boosting is prohibited.

Killing your alts or teammates simply to boost your stats is not allowed.

Final Notes

Following the situation, you may receive a heavier punishment depending on the offense.

You are free to appeal (if not banned from appealing) by opening a ticket if you believe the punishment was unfair or if you request a review after a period of time.

Rules are subject to change; we will make an announcement if any changes occur. Stay up to date with the rules!
