

HOW TO UPLOAD VIDEOS or PICTURES to DRIVE-

1. Your device must have Google Drive app on it and you must login to your child's account as well.
2. Open Google Drive on your device
3. Press the small plus sign 
4. Press the upload arrow
5. Choose Photos and Videos
6. Choose album photo or video is in (Probably recents)
7. Select photo/video (blue dot with white arrow indicates you selected it)
8. Press upload (upper right corner)

Next (easiest to do on computer or laptop) but can be done on device

1. Go to Google Drive homepage
2. Click on recent
3. Photo/Video should be first image (often labeled medium.mov)
4. Click on it -then press share button

(or right click and scroll to share)

5. Click advanced
6. Click change from Private

Private - Only you can access

[Change...](#)

to PUBLIC on the internet anyone can view

7. Press save
8. Copy link and insert that. People should be able to view. If it is a video file, it takes Google Drive a few minutes to process.
9. If you can't copy that link then right click movie again and press get shareable link to copy and paste
