Privacy Policy

Last Revised: Sep 25, 2023

This Privacy Policy explains our practices regarding the collection, use, disclosure, and protection of information that is collected through our Service, as well as your choices regarding the collection and use of information.

● Collection and use

We collect the following personal information from you:

- Preferences Information you provide such as product or content interests, or communication or marketing preferences
- Usage activity about how you interact with us such as what content you viewed and which areas of our app you visited
- Device Information

As is true of most apps, we automatically gather information about your device such as the type and operating system.

We may also collect billing information when you sign up for Premium service. If you remove your account from the app, we destroy all data.

We use this information to:

- Assess your needs to determine suitable products or services
- Send you push notifications when you are using our app. If you do not want these notifications, you can manage your preferences through your device or app settings depending on your device type.
- Improve our App and marketing efforts
- Conduct research and analysis

We use your profile information to identify "Who likes your posts, but not follow you" and "Active followers".

How do we define "Who likes your posts, but not follow you"?

Profile admirers is a list of users who are active in the user's account (leave likes and comments, tag you in photos, etc.), but do not follow this user.

How do we define "Active followers"?

Profile fans is a list of those who have recently been involved in the user's profile by showing activity: likes, comments, etc. The profile's fan list displays the top most active followers of the profile.

This app does not abuse Instagram Privacy Policy and Terms of Usage and uses only publicly available data.

● Security of data

The security of your data is important to us, but remember that no method of transmission over the Internet, or method of electronic storage is 100% secure. While we strive to use commercially acceptable means to protect your data, we cannot guarantee its absolute security.
