[Danielle Perez de Corcho]:

We talked about this a lot - how you focus everything in your paragraph should relate back to the topic sentence. Where do you think the topic sentence is going to be?

[00;01;40;44]

[muffled response]

[00;01;41;35]

[Danielle Perez de Corcho]:

First sentence. Good.

[00;01;43;22]

[Danielle Perez de Corcho]:

We have the classes in which we have the instructor give lessons, and during the

lessons we do a lot of interactive activities.

[Elisa Valera Machado]:

They start with the basic English. They give you the skills to learn to read, to write, to speak.

[00;02;08;04]

[Mayra Gomez]:

My struggle always has been writing. And, I used to have issues reading, but now I'm in a level that I can read. And, I'm not afraid to read loudly.

[00;02;18;56]

[Sâmella Priscila De Souza Santos]:

The teacher, she's so amazing. And, my favorite thing about the program is the opportunity to improve my English.

[00;02;27;27]

[Danielle Perez de Corcho]:

We have the English Language Lab, where we have interactive games and speaking activities for students to participate in in a more informal and relaxed environment where they can just have fun using English with their classmates.

[00;02;43;19]

[Danielle Perez de Corcho]:

We have volunteers, who come in, who are native English speakers, and they give our students a chance to practice their English skills in a fun way, just having conversations. It's great to see students able to use what they learned in class in real life situations.

[00;02;57;50]

[Elisa Valera Machado]:

We can practice more, you know, our vocabulary, our skills, how to speak.

[00;03;03;41]

[Mayra Gomez]:

They have the time, and they're willing to teach you, to show you, to guide you. So, that's very important, and I really appreciate it.

[00;03;14;50]

[Danielle Perez de Corcho]:

One of our biggest goals is making sure students get the confidence that they need to go out there and speak English in the community and meet people and kind of come out of their shell.

[00;03;23;26]

[Sâmella Priscila De Souza Santos]:

I socialize with the students from other countries. And, this is amazing for me. So, I really love it.

[00;03;30;04]

[Mayra Gomez]:

You get to know cultures. You need to know language, and you need to experience people different than you.

[00;03;38;06]

[Elisa Valera Machado]:

Knowledge is something nobody can take out from you. It's something you're going to take and you bring all your life.
