

Hello!

This is our official list of archers we will consider for Stray Arrow! This is a pretty big list, so it is likely not all of them will make an appearance, but this is who is considered an archer.

We will have a section dedicated to secondary bow users/heroes alts as well, but we'd love to focus on the main archers of the series. [If you have any questions, please do not hesitate to reach out to us.](#)

Thank you!
