Name:_____

Topic 2: Linear Equations

Apply concepts of slope and y-intercept to equations and compare data sets.

Learning Targets

1. I can understand and use the different forms of a line.
  a) slope-intercept form
  b) point-slope form
  c) standard form

2. I can write the equation of a line
3. I can use parallel and perpendicular lines

Rubric

4- I can teach others…
Completed problem with all of the correct process, answer, and more

3- I've got it…
Completed problem with correct process but had minor mistakes

2- I'm starting to catch on but need more….
Had basic idea but had major flaws in process or in the computation OR had the answer with no justification.

1- I'm just beginning…
Process had major flaws

0- I'm still at the start line…
No evidence of learning…yet

Assignment/date														
1. lines														
2. write														
3. parallel/ perpendicular
