

# Teacher Communication to Families

## Email

### Attachment: Family Flyer

Hello Families!

I am excited to share with you a new early math practice tool we'll be using called Family Playlists! Please read this email to learn more about Family Playlists or take a look at the attached flier.

**Why Family Playlists?** Family Playlists will help your child practice math skills they are learning in the classroom with you at home!

I'll be using Family Playlists to:

- **Build relationships.** Family Playlists will help us team up to support your child.
- **Support classroom learning.** Family Playlists directly align to what I am teaching in class and allow you to understand what your child is learning.
- **Learn more about your child.** Family Playlists help me understand your child's unique strengths and challenges and better support them in the classroom.

[Insert personal message about how Family Playlists will be used in your classroom]

**What are Family Playlists?** Family Playlists are a homework assignment where students practice math through a learning game.

- **Easy access:** Sent via email or text message in your preferred language.
- **Collaborative:** Complete activities with your child or any trusted adult.
- **Hands-on:** Games use materials found at home.
- **Memorable:** Record a 1-minute video of your child showing what they learned.

You'll receive Family Playlists assignments weeks by text and/or email. Please look for a text from [your name] on [insert date] to find the first Family Playlist of the year.

As always, please reach out with any questions you may have about Family Playlists. You can reach me at [insert contact info] between the hours of [insert times].

If you experience technical issues with Family Playlists, you can access support [here](#).

I am excited to watch your child's videos!

Sincerely,

[sign name]
