Subject: Invitation to your school to participate in the Indian Computing Olympiad

Dear teacher,

This is an invitation for your school to participate in the Indian Computing Olympiad (ICO). This is a great opportunity for your students to enhance their programming skills and put their school on the global map at the [IOI 2021 in Singapore](#).

Indian Computing Olympiad - National Programming Olympiad -

The only programming olympiad that leads to the [International Olympiad in Informatics](#) (IOI), one of the 12 International Science Olympiads held annually, supported by UNESCO. It is conducted by the IARCS to identify students who have outstanding skills in algorithms and computer programming.

It is the perfect stage for the young problem solvers to start early in this information-driven age and explore the world of algorithms and programming. Participating in ICO will also help them develop critical thinking and algorithmic reasoning.

Details:

- **Eligible students:** Students who like to solve puzzles and are studying in class 6-12
- **More details:** www.codechef.com/ioi/2020
- **Preparation links:** www.codechef.com/ioi/prepare

Registration details:

- **Registration link:** [Indian Computing Olympiad](#)
- **Bulk registration details:** <https://www.iarcs.org.in/inoi/current.php#zio2021bulk>
- **Last date to register:** 8th November 2019

Kindly **share with your students** regarding the Olympiad and provide them with a chance to **represent India at the international stage** among 85+ countries and also win cash prizes up to 14+ lakhs of which $\frac{1}{3}$ amount goes to the school. Read more [here](#).

This is a great opportunity for your school students to enhance their programming skills and put your school on the global map. Universities like the University of Waterloo, National University of Singapore, IIIT Hyderabad, IIIT Delhi and few others provide special consideration in their admission process to the students who perform well in this olympiad. More details can be found [here](#).

Resources to help you share this information with the students:

- **A presentation** about Indian Computing Olympiad: bit.ly/icoppt

- **Poster:** https://drive.google.com/drive/u/0/folders/1UszHRMu_48YIfKXkDPS3-lp8OLthcDi-

Looking forward to seeing participation from your school!

For any queries, please feel free to contact on schools@codechef.com.

Regards,

P.S.: Find about more such competitions here: <https://www.codechef.com/school/competitions>

#DidYouKnow?

The most famous pioneers in the computing world such as Bill Gates, Steve Jobs and Mark Zuckerberg began learning to code at much younger years. Young brains are more pliable and able to readily adapt to the rigours of coding.

If you know a school student who is good at puzzles and programming, then here is a chance to put them on the global map!

Indian Computing Olympiad, a national-level programming Olympiad is a platform through which they will get to represent India with 85+ countries at the IOI global stage, supported by UNESCO. They can also win a cash prize worth 14+ Lakhs and laptops.

More details here : www.codechef.com/ioi/2020

Provide them with an early start in this information-driven age and help explore the world of algorithms and programming.

Last date to register : 1st November 2019
