

Asia-Pacific Regional Youth Environment Forum Microgrants Competition

The Children and Youth Major Group supported by the Republic of Korea (ROK) through UNEP Asia-Pacific Office is happy to announce grants for small scale, ongoing projects for immediate and emerging needs. The call for projects align with the Asia-Pacific Regional Youth Environment Forum (AP-RYEF) and the winners get the chance to present the status or the outcome of their projects in the Forum.

WHAT WE SEEK

The forum welcomes applications that foster impactful environmental actions, it could be but not limited to awareness campaigns, community organizing, non-violent direct actions, small adaptive and mitigation efforts. The project should benefit Asia-Pacific regions, particularly marginalized groups including those living in poverty, women, youth, children, ethnic minorities and other environmentally vulnerable groups. We support a diverse range of projects as long as it enhances environmental sustainability, increases climate resilience and reduces loss and damage impacts.

All grant recipients must produce a report by the end of their proposed timeline (in the application) to highlight their grant-funded activities and outcomes.

GRANT VALUE

We will support **5 projects with 300 USD each** considering various factors such as but not limited to sub-regional balance and inclusion of minority communities.

ELIGIBILITY REQUIREMENTS

The organisation/group should be:

- Youth focused/Youth-led Non-Profit Organization based in Asia-Pacific;
- Youth groups in minority communities;
- Youth-serving entity.

The activity/project should be:

- Implemented in the Asia-Pacific Region;
- In the initial phase with a further timeline of at least a month;
- Able to mobilize grassroots/local communities;
