

Privacy Policy

Welcome to **DeepSeek Chat Assistant**. Your privacy is important to us. This Privacy Policy outlines how we handle your data when you use our Chrome extension.

1. Information We Collect

1.1 No Personal Data Collection

We do not collect, store, or process any personal data, browsing history, or user-generated content. The extension functions solely as a tool to provide AI-based assistance within the side panel.

1.2 Non-Personal Data

While using the extension, we may access **non-personal data** such as:

- The **current webpage URL** (only when necessary) to provide contextual AI responses.
- API interactions with DeepSeek AI to process user queries.

We do not store, share, or track this data.

2. How We Use Permissions

2.1 Side Panel Permission (**sidePanel**)

- This allows the extension to open DeepSeek AI in a side panel for an easy and seamless browsing experience.
- No additional tracking or user data collection occurs.

2.2 Host Permissions (**<all_urls>**)

- This permission enables the extension to be accessible across various websites so users can interact with DeepSeek AI while browsing.
- We do **not** alter webpage content, inject scripts, or track browsing activity.

3. Data Sharing & Third-Party Services

- **DeepSeek Chat Assistant does not share any user data** with third-party entities.
- Any interaction with DeepSeek AI is subject to its respective privacy policy.
- All communication between the extension and DeepSeek AI occurs via API requests and is not stored by us.

4. Security

- We do not collect sensitive data, ensuring your browsing activity remains private.
- Our extension does not include ads, trackers, or hidden scripts that monitor user behavior.

5. User Control & Consent

- The extension works **only when actively used** by the user.
- You can remove or disable the extension anytime via **Chrome Extension Settings**.

6. Changes to This Privacy Policy

We may update this Privacy Policy from time to time. If changes occur, we will update the effective date and notify users through the Chrome Web Store.
