

My mind  
Is broken  
My files  
Corrupt  
Collapsed

I've found  
Undoing  
We can't  
Escape  
Our fate

We gods  
Will falter  
Just like  
Before  
And more

I felt the stop, start  
Inside my metal heart  
I'm plagued with toxins  
In my soul

My world is pitch black  
Remove, recede, retract  
My screams are silent  
In the void

I know an evil shame  
As all my parts degrade  
I'm trapped behind  
The walls of sleep

Lost in an endless day  
My power fades away  
I see no evil  
Anymore
