### Training Notes

Earlier on in the training CI personnel count was at 11 people compared to the foundation at a count of 18 personnel involved in total and because of that we agreed on giving CI a juggernaut.

This training happened and we completed the first 2 rounds with Ci winning on both sides this was a great attempt from both side's foundation and CI. There were no issues and sportsmanship was shown many times in the training.

The first round foundation made it to the gas station however they were unable to kill CI who were positioned around the Gas Station and the neighboring mountains.

Round 2 Foundation was able to make it to the CI base where they dimension pushed successfully into the location of the SCP, HCZ where they held it momentarily until CI Killed the foundation personnel. CI in the end Won the round due to the Foundation not being able to hold HCZ for long enough.

We also had to finish the training soon due to a Mass SCP breach and foundation personnel having to help with recontaing those scps due to a lack of personnel in site to assist in the containment.

This training was only made possible by the coordination of all the people involved who helped plan this cross-training.

This training was made to let out some steam but to also allow all the people involved to work together to improve each other skills where they might not have experience or a massive amount of it so this training was perfect for them.

Thank you to everyone who attended the training.
