[Please Read] Do you buy stuff on Amazon?

Body:

Hey **NAME**.

Now I don't know about you, but I love to buy stuff on Amazon (if you saw my home you'd laugh at the smiley face boxes that are in the trash almost every week!)

Here's a mind-blowing statistic for you...

600 items are sold on Amazon every SECOND.

So, in the time it takes to read this email - 3 minutes - over 100,000 items will have been sold.

In the time it takes to have your lunch - 60 minutes - approximately 2,100,000 products will have been added to a virtual cart and paid for.

Think about that for a second...I mean, that number is absolutely incredible when you consider it.

And in case you don't already know - you can actually *sell your own products* on Amazon too.

To be honest, I didn't know much about this at all until I met my friend Stephen Somers.

When I was catching up with Stephen recently, he shared that he'd now **helped over 8,900 people** learn how to sell

their own, branded products across the globe on Amazon.

And the most amazing part...

The vast majority of people he's worked with started with absolutely no experience and weren't what you'd call 'technical' or 'internet savvy.'

So before you think that these people must've been marketing geniuses...

Think again!

The truth is that Stephen and his business partner Robert have helped all kinds of people do this...

- Corporate employees
- Stay-at-home moms
- Professionals who want passive income and a great investment vehicle
- Small businesses who want more revenue streams

I was really impressed with everything they're doing and so, I thought to myself...

"Maybe my audience would like to learn how to do this?!"

When I was speaking with Stephen, he showed me how MPSH has been quietly working behind the scenes during lockdown, completely **overhauling their ENTIRE Amazon training program for 2021.**

And this week...

They're running a completely new training just for us to walk us through how it all works, called...

The SIMPLEST Way For Beginners To Make \$10,000+ Every Month Selling Simple Products Online In 2021...

*Introducing The Easiest “Beginner Approved” Way To
Generate 5-6 Figures Passively On The World’s #1 Website*

=> Click here to grab your seat for this new training!

It’s going to be happening on **DAY AND DATE at TIME.**

The possibilities are mind-blowing with this business!

Don’t miss out!

P.S Even if you’re happy in your career or business and you don’t want to do something like this full time, it’s a really great way to supplement your earnings and gives you an extra source of income for your household.

[Registration Open] Build An Incredible Side Income on Amazon...

Body:

First off, I hope you enjoyed yesterday’s email. I know it was definitely ‘something different’ and something you’re not used to seeing from me...

You would likely think of me as more of an expert in the **INSERT NICHE** field. And I am.

But the really cool thing about selling products on sites like Amazon is that you don't need to be an expert in ANYTHING.

So that's why it piqued my interest!

In this business, all you've got to do is learn...

1. How to **identify profitable products** that sell
2. How to **find a supplier** who you can work with
3. How to **get your product up & selling** on Amazon

Now, are there steps that you need to learn in between?

Of course!

But at a high level, that's all there is to this business.

Here's a note for you from Stephen on how this business really works...

The Simple Path To Building An Income Selling On Amazon

First off... here's the strategy in one simple sentence...

Goal: *Find products that are already in demand but are low in competition, create new versions of those products and sell small quantities of them on Amazon (US, UK and Europe!) every single day.*

*Yep... it's simple.
But simple works ;)*

*In fact, this is the exact method that's helped Robert and I to **sell over \$12,000,000 of products online** from complete scratch.*

The great thing is that you don't even need to sell that much to build a phenomenal part or full-time income (and we'll show you all the numbers behind how this works on our upcoming brand new training).

>> Register For our BRAND NEW Amazon Workshop

*As an example, let's say that you **want to make an extra \$2,000 per month** selling products on Amazon...*

You'd need \$66 per day in net profit.

\$66?! Seems possible right? Maybe even simple?

*Now, let's say that the average product makes you **\$5 in net profit** - a lot of the products our members sell make a lot more!*

Well, that means that you only have to make 13 sales per day. Again, completely doable.

Now let's make this silly and imagine that you have 3 products.

If all of this were the case, then you'd only need to make 4 sales per day of each product to bring in an additional \$2k in your pocket every single month.

Not bad right?!

The problem is that most people try to overcomplicate this.

They create reasons why they can't (that are usually BS).

But here's the thing...

You can absolutely do this! It doesn't matter if you don't know how right now - we'll give you "the how" later this week!

You're probably also wondering how to get up and running, right?!

To give you all those answers and a ton more value, we're running a limited seating training this week that's going to walk you through this simple Amazon blueprint from A-Z.

*The call will be happening on **DAY AND DATE at TIME.***

=> Register here for the upcoming training here!

Here's specifically what we're going to show you...

- *The **best beginner-friendly Amazon business model** that you can start and grow from a laptop in 2021 & beyond without a website, warehouse, or huge monthly expenses*
- *The **complete breakdown of how you can easily make \$10,000+ per month with this business model** even if you've got zero experience with online business*
- *How you can start finding **money-making products on Amazon in less than 10 minutes -- without any software -- that will put profit in your pocket for YEARS** (99% of sellers will never even consider selling these products!)*
- *And so much more...*

*My advice is to do whatever you can to attend - getting on with us live and being able to ask ALL of your questions is **invaluable**.*

There are only going to be 200 spots for this FREE training so to snap up your spot immediately, click on the link below and get registered for the call.

=> Click Here to Register For The Live Training Call

Can't wait to share this stuff with you and see your Amazon business take off!

*And thank you, for allowing me to share this with your tribe, **YOUR NAME HERE** - I promise that this will be a breakthrough training for so many of your wonderful students.*

See you on the call!

“Is now the right time to start a business?”

The answer is, undeniably, yes!
(Even during a pandemic.)

And as the world shifts more and more online...

2021 really is one of the BEST times to have a presence online as an Amazon seller -- that's something you simply cannot deny:

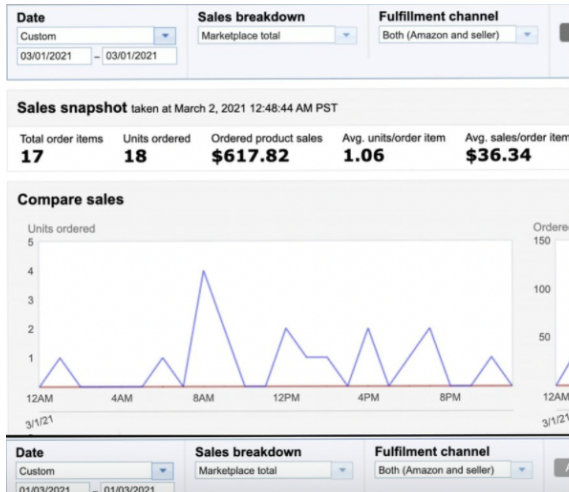

And if you joined us earlier in the week for the training with Stephen & Robert from Marketplace SuperHeroes, you'll have seen this first-hand!

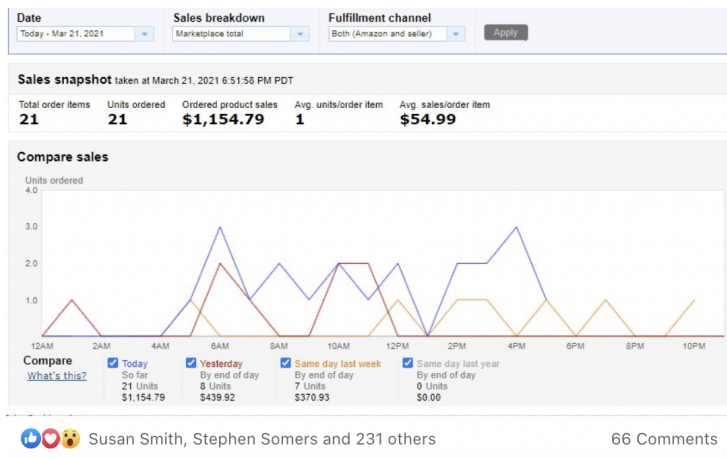

(The replay is still online if you want to rewatch it)

The guys also talked in-depth about their new **Ignite Program**, and how 'beginner-friendly' their system is to get started with, **BUT you're still on the fence...**

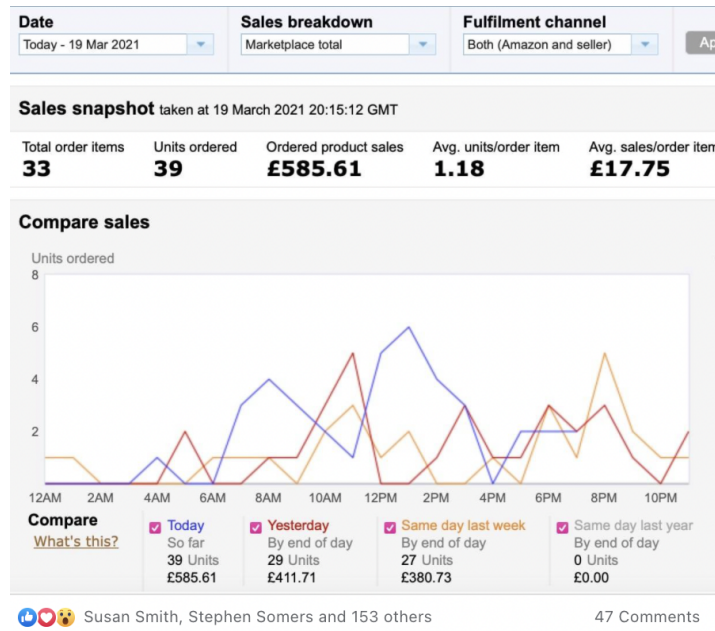

So I asked Stephen to send over some recent success stories from regular people in their community - that way you can see for yourself just how quickly this business can take off when you follow their program.

*“In less than a year **we reached \$1000 a day!** We honestly didn’t think we’d get to this point as quick as we did. We started averaging \$60 - \$100 a day and now that’s **\$800 a day!**” Arun*

*“I hit **my first \$1,000 in one day** today :) I’ve been selling this item for 3 months and I’m about to sell out! This is **only 1 product in 1 marketplace!** Imagine what will happen when I get my UK account activated -- that’s another opportunity to expand!” Amy*

*"I'm so happy with where I'm at right now. I've **sold 39 units so far today** (without any PPC) and it's not even the end of the day. It's been an amazing journey so far and I'm looking forward to bringing in more products, going global and growing my business!" **Zsófia***

These students all used the **Ignite Program** to start and grow their Amazon businesses to where they are today - and they all started without having everything figured out.

They literally followed the course material and put it into action.

So if you want to follow in their footsteps and get the same Amazon training, **click here to get started with the Ignite Program now.**

Enrollment closes Monday at midnight PT.
