

Remember: Agenda must be complete (with estimated times) on the day before the meeting.
Any additions after that must go at the bottom (AOCB)

>>> Tuesday 9th April 2019

Dundee:

Remote: Josh, Frances, Simon, Mark, Melissa, David, Riad, Wilma, Jason, Chris, Andreas

Start: 2:00 pm

1. Accepting minutes from [last meeting](#)

- No objections.

2. Project Status

(2-3 minutes each)

- Data-In
 - Prod66 (Frances/Simon): looking at idr-next with **no caching!**
- Data-Out
 - Riad: omero-insight installer working for Windows & Mac. Can be built, run and installed on Windows.
 - M5 tagged. Working toward for M6 (on several repositories). Test job is occasionally green.
 - See "Release Checklist" on <https://trello.com/b/a1VdILbl/omero-550>
 - Insight → matlab → bio-formats → docs
- Glencoe - 14:07
 - Chris: slow on microservices, more investigating arbitrary tile sizes from iviewer. Was never activated. Have been testing in PathViewer for 1.5 weeks.
 - Helpful on formats like SVS where the tiles are quite small, especially on a 4K screen, where currently it would be 40-50 tiles.
 - Changes should all be in OMERO.web.
 - Downloading work ongoing in the background (har har)
- Community
 - Training feedback?
 - JRS: last night feedback was positive. Interesting, diverse group.
 - ECDP starts tomorrow. Blogish post coming.
 - Announcement for next training, perhaps more focused on developers
 - Feedback?

3. AOB

(5 min. max; tech. Discussion should be highlighted to relevant people and rescheduled)

- Josh: <https://help.trello.com/article/1177-personal-vs-team-boards> Quick heads up
 - JRS: Requires procurement (isn't a vendor)
 - Josh: change in payment plan. New limit on free plan is 10 boards/team. Currently at ~80. Will hit us in a few months.
 - Starting to do more on GitHub is probably a good idea
 - Might also match the code splitting into smaller repos (put ticket next to the code)
 - Josh: investigated Trac->GH and Trello->GH. GH better at moving issues between repos. Might start with an issues repository.

4. Main Topic

(20-25 minutes plus 15 minutes questions max)
