

Scott Rigby technical content samples 🧑‍💻 🌐 ✍️

Most of my blog posts have kept technical info short and point toward docs for the details. However, here are some blog posts below that lean more technical, plus a few others to show a range.

Linkerd samples

- [A guide to modern Kubernetes network policies](#), Buoyant blog, August 2024
- [Migrating from Istio to Linkerd](#), in collab with Flynn. Buoyant blog, August 2024
- [Demo: Migrating from Istio to Linkerd](#), Buoyant blog, August 2024
- [Flagger vs Argo Rollouts vs Service Meshes: A Guide to Progressive Delivery in Kubernetes](#), Jan 2024

Helm samples

- [Storing Helm Charts in OCI Registries](#) in collab with Josh Dolitsky and Matt Farina. Helm project blog, Feb 2022
- [Tools You Can Use To Manage Your Helm Releases Declaratively](#) in collab with Matt Farina. Helm project blog, Apr 2022

Flux samples

- [Flux Security doc](#) ([initially drafted](#) and have since [helped update](#)). Flux website
- [Flux for Helm Users](#) ([original location](#)). Flux website
- [Flux Migration and Support Timetable](#) ([original location](#)). Flux website
- [Flux Governance](#) (less technical in the coding sense; I [initially drafted](#) and helped reconcile with the team)

OpenGitOps samples. Also less technical

- [OpenGitOps Governance](#) (similarly written as part of helping set up the GitOps WG and OpenGitOps sandbox project)
- [GitOpsCon relocates to Open Source Summit](#) OpenGitOps project blog, 2022
- [Flux Graduates within CNCF!](#) OpenGitOps project blog, Nov 2022
- [OpenGitOps 1.0 is finally here and why you should care](#) in collab with Dan Garfield. OpenGitOps project blog, Nov 2021

Git repo and Gist samples. Often used for in-person or recorded talks, demos, and workshops. Here are a few examples

- [Charts Repo Actions Demo](#). The official demo for Helm GitHub Actions

- [GitOps for Helm Users](#). Featuring your and my favorite dinosaur that definitely won't give you nightmares
-  [Keybase team encrypted file sharing](#). A doc we have used internally for Helm maintainers for years
- [How to Structure GitOps Repos](#)
- [Flux use case: Cert Manager, Traefik, app with ingress, GitHub as source](#)
- [Demo: Flux Helm Operator -> Controller Migration](#)
