BUILD YOUR WEFI LANDING PAGE IN LOVABLE (4 STEPS)

STEP 1: Open Lovable

Sign up at https://lovable.dev (it runs in your browser).

STEP 2: Choose Your Call to Action

Decide the ONE thing you want visitors to do:

- Book a 1:1 with you via **Tempo** (https://meettempo.app/) or WhatsApp (WhatsApp Business recommended), OR
- Join a pre-scheduled call (have the link and time ready).

🎁 How to Sign Up for Tempo (Exclusive WeFi Offer!)

Tempo is an easy-to-use appointment scheduling platform that lets people book calls with you automatically, 24/7.

Follow these simple steps:

- **Visit Tempo:** Go to https://meettempo.app/
- **Choose your plan:** Click **Pricing** and select the **Business** plan.
- **Create your account:** Sign up using your email address.
- **Get your discount:** Enter the exclusive promo code **WELKOMWEFI50** at checkout.
- **Save 50%:** Enjoy **50% OFF your first 3 monthly payments!**

- **Complete payment:** Pay securely through Mollie using an available payment method.
- **Finish onboarding:** Follow the setup instructions to complete your Tempo profile, set your availability, and create your first booking event.
- **Copy your booking link:** You'll use this link on your Lovable landing page.

That's it! 🎉 You're ready to accept bookings!

Tip: You can connect your Google Calendar to help avoid double bookings and automatically send booking confirmations to your clients.

If you prefer, you can also use WhatsApp Business or a pre-scheduled call link instead of Tempo.

STEP 3: Gather Your Source Material

Pick the videos, slide decks, or presentations you like from the Deone Hub:

https://linktr.ee/deonehub

Or use one of your upline's sites as a reference:

- https://joinkenwefi.lovable.app
- https://deolife.app/
- https://deolife.org/
- https://deobanking.io/start
- https://wefi-bridge-to-ownership.lovable.app
- https://wefi-deone-story-circle.lovable.app/

https://deobanking.lovable.app/

STEP 4: Create Your Landing Page

USE the above info and just ask Lovable to make a landing page.

OR

Paste this prompt into Lovable.

Upload or link your materials, fill in the [brackets], and send.

-

A. LOVABLE PROMPT

Hi Lovable! Act as a world-class landing page designer who specializes in high-converting, story-driven pages.

THE PROJECT:

WeFi is the bridge between traditional finance and decentralized finance, and it offers people a rare opportunity to be part of the ownership side of a new financial system. WeFi is now adding Deone: a premium membership experience that brings banking, wealth, and wellness together, all onchain. Deone shows what this new system looks like in everyday life, from accounts and cards to digital asset storage and lifestyle benefits. WeFi continues alongside Deone, and together they show both sides of the opportunity: using the future of finance and owning a part of it. Use the documents, videos, and sites I've shared as your source material.

THE AUDIENCE:

Everyday people who may know nothing about crypto or decentralized finance. They should never feel confused or talked down to. Avoid jargon, and if a technical term is needed, explain it in one simple sentence.

THE CORE MESSAGE:

Millions of people use technologies like Lovable, Claude, and their banking apps every day, but very few ever get the chance to own a piece of the technology they use. WeFi is that chance. The page should leave visitors feeling inspired, curious, and part of a movement.

PAGE STRUCTURE:

- **Hero:** A bold, emotional headline about ownership, a one-line subheadline, and a clear button: [Book a call with me / Join our next call]
- **The shift:** A short, simple story of how money is changing, from traditional banks to a new system people can participate in
- **What WeFi is:** Three or four easy-to-scan points explaining WeFi in plain language
- **Meet Deone:** A short, elegant section showing what premium onchain banking, wealth, and wellness look like in real life
- **Users vs. owners:** A visual contrast showing the difference between using technology and owning it
- **Why now:** Why this moment matters and why early participation is meaningful
- **FAQ:** Five to six simple questions a beginner would ask
- **Final call to action:** Repeat the button with an inviting closing line

CALL TO ACTION:

All buttons should link to [your Tempo booking link / WhatsApp Business link / call registration link].

DESIGN AND TONE:

Modern, premium, and trustworthy. Warm and hopeful rather than hype-driven. Plenty of white space, strong visuals, and fully mobile-friendly, since most visitors will arrive from their phones.

IMPORTANT:

Do not promise or imply guaranteed returns, income, or profits. Focus on education, ownership, and the opportunity to learn more.

-

B. OR USE MEGAN'S QUOTE

"Hey Lovable! You are a world-class, high-converting landing page designer. I would love help building a landing page using information from this slide deck that I've uploaded. This project, WeFi is the bridge between traditional finance and decentralized finance, and there is an opportunity for ownership here. When people visit this landing page they will be inspired by the movement even if they do not know the first thing about decentralized finance. This page should be very user friendly and inspire people to see the ownership opportunity (think: many people use Lovable, Claude, and other technology, but very few get the opportunity to own it)."
